◆ This product is allowed with restrictions. See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

❶ The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

❷ The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

❹ The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

❺ The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

❻ The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

❼ The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

❽ This product contains more than 1,000 MPN/g fecal coliform. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

❾ This product contains more than 3 MPN/4g Salmonella. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

❿ This ingredient or processing aid is not certified organic. The operation supplying this input material may be exempt from certification under §205.101. Agricultural ingredients in this product shall not be labeled as organic when used in further processed products unless the ingredient or processing aid is certified by a USDA accredited certifier.
