Livestock Products: Acid Activators for Sodium Chlorite, Acidified
ABS Encore Pre/Post Sanitizing Teat Dip (abv-12221) •
Must only be used for the generation of acidified sodium chlorite. Use of resulting acidified sodium chlorite must comply with 205.603(a)(28) or 205.603(b)(9).

◆ This product is allowed with restrictions. See the Categories section for use restrictions.
■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.
1 The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
2 The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
3 The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
4 The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
5 The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
6 The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
7 The cadmium level of this product exceeds 1000 MPN/g. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
8 The Salmonella level of this product exceeds 3 MPN/g. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
Livestock Products: Sodium Chlorite, Acidified
ABS Encore Activator Teat Dip (abw-12814) ◆
For use as a livestock teat dip.

Crop Products: Bentonite
Garden Treasure Bentonite (wic-2337)

Crop Products: Diatomaceous Earth
Last Crawl Grain Insect DEstroyer Insecticide Powder Diatomaceous Earth (wic-5326) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Diatomaceous Earth
Barn Fresh Natural Ammonia Control (wic-8090) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
Red Lake Earth Diatomaceous Earth with Calcium Bentonite (wic-9325) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
Stall Dry Absorbent & Deodorizer (wic-1412) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
Fresh Coop Dust Bath (wic-6488) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
White Lake Diatomaceous Earth (wic-11033) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
FeedSource Diatomaceous Earth (wic-11115) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Minerals
Z-Lite Feed Additive Premium HSCAS Formula (wic-7850) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Odor Control Products
ABF Activated Barn Fresh Poultry Litter Ammonia Control (wic-3884) ◆
Activated Barn Fresh Fresh Coop Odor Control (wic-6119) ◆
Activated Poultry Sense Natural Zeolite & Citric Acid Formula (wic-8524) ◆
Activated Barn Sense Zeolite Odor Control Bedding Additive Natural Zeolite & Citric Acid Formula (wic-8555) ◆

Crop Products: Adjuvants, for use in pesticides
XPANDEX Surfactante Organosiliconado Liquido Miscible (adh-13859)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Crop Products: Aquatic Plant Products, synthetically extracted
ALGACROP FERTILIZANTE ORGÁNICO GRANULADO (adh-0570)
ALGACROP L10 FERTILIZANTE ORGÁNICO LÍQUIDO (adh-10715)
Crop Products: Botanical Pesticides
CANECLROP Insecticida Agrícola Concentrado Soluble (adh-11574)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
ULTRAGARLIC Insecticida Agrícola Concentrado Emulsionable (adh-11575)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
CELAPYR CE Aceite de canela + Piretrinas Insecticida Agrícola Concentrado Emulsionable (adh-13129)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
REGAUCID PRO Quitina + Aminoácidos + Extracto de regaliz + Corteza de sauce blanco FUNGICIDA AGRÍCOLA CONCENTRADO SOLUBLE (adh-14458)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Copper Sulfate
PROTECTOR Sulfato de cobre
pentahidratado: Fungicida Agrícola Solución Acuosa (adh-8759)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients
AMINOGENIC Zn Fertilizante Orgánico Líquido (adh-14459) • Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
AMINOGENIC Ca-B-Mo Fertilizante Orgánico Líquido (adh-14462) • Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
AMINOGENIC Mg Fertilizante Orgánico Líquido (adh-14460) • May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Humic Acids – alkali extracted
ULTRAHUMI FERTILIZANTE ORGÁNICO LÍQUIDO (adh-1622)

Crop Products: Microbial Products
BIOBACIL Bacillus subtillis Fungicida Agrícola Concentrado Soluble (adh-8475) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
ULTRASOAP Ácidos grasos + Sales potásicas INSECTICIDA AGRÍCOLA SUSPENSIÓN ACUOSA (adh-10716) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demolser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Intrinsic Insecticida Agrícola Polvo Humectable WP (abn-14295) 
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Beauveria spp.
Agrobionsa Bea-Sin Insecticida Agrícola Polvo Humectable WP (abn-5635) 
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Envision Beauver Insecticida Agrícola Polvo Humectable WP (abn-5642) 
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bea Tron Insecticida Agrícola Polvo Humectable WP (abn-5648) 
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bea Plus Insecticida Agrícola Polvo Humectable WP (abn-6398) 
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Diatomaceous Earth
Agrobionsa Diat-Sin (abn-5636)  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural DME (abn-6402)  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides
Tricoder-Forte Fungicida Agrícola Polvo Humectable WP (abn-5634)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Lila-Sin Nematicida Agrícola Polvo Humectable WP (abn-5637)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Meta-Sin Insecticida Agrícola Polvo Humectable WP (abn-5638)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Pae-Sin Insecticida Agrícola Polvo Humectable WP (abn-5639)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Tricho-Sin Fungicida Agrícola Polvo Humectable WP (abn-5640)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Beauver Insecticida Agrícola Polvo Humectable WP (abn-14289)  For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products
Agrobionsa Tri-Sin Insecticida Agrícola Polvo Humectable WP (abn-5641)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Destrux Insecticida Agrícola Polvo Humectable WP (abn-5643)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Elicitor Fungicida Agrícola Polvo Humectable WP (abn-5644)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Lilac Nematicida Agrícola Polvo Humectable WP (abn-5646)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Paelcim Insecticida Agrícola Polvo Humectable WP (abn-5647)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Entomoti Insecticida Agrícola Polvo Humectable WP (abn-5645)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Lila-Plus Nematicida Agrícola Polvo Humectable WP (abn-5650)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Lila Tron Nematicida Agrícola Polvo Humectable WP (abn-5651)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Meta Tron Insecticida Agrícola Polvo Humectable WP (abn-5652)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Pae Tron Insecticida Agrícola Polvo Humectable WP (abn-5653)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Tri Tron Insecticida Agrícola Polvo Humectable WP (abn-5654)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lila-Plus Nematicida Agrícola Polvo Humectable WP (abn-6397)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Meta-Plus Insecticida Agrícola Polvo Humectable WP (abn-6398)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Pae-Plus Insecticida Agrícola Polvo Humectable WP (abn-6399)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Tri-Plus Fungicida Agrícola Polvo Humectable WP (abn-6400)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Elicitor Fungicida Agrícola Polvo Humectable WP (abn-14288)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Dextrux Insecticida Agrícola Polvo Humectable WP (abn-14290)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Paelcim Insecticida Agrícola Polvo Humectable WP (abn-14291)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Entomoti Insecticida Agrícola Polvo Humectable WP (abn-14292)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Lila-Plus Nematicida Agrícola Polvo Humectable WP (abn-14296)  May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products
Agrobionsa CONSORTIUM Fungicida Agrícola Polvo Humectable WP (abn-12555)  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionosa Greena Fungicida Agricola Polvo Humectable WP (arm-14294) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products:** Compost, other (plant and animal materials)
- Terrahumus MonteReal Biofertilizante Orgánico Composta (amb-11477)

**Crop Products:** Botanical Pesticides
- Agronuve Innovando Valor Bioamin Plus (anv-11689)
  - Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products:** Copper Sulfate
- Cu-Protech Agronuve Fungicida/Bactericida (anv-7635)
  - For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products:** Fungicides
- Agronuve Innovando Valor Botrimil Fungicida (anv-8309)
  - For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Crop Products:** Microbial Pesticides
- Agronuve Innovando Valor NOT Fungicida/Nematicida (anv-8256)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products:** Pyrethrum
- Agronuve Innovando Valor Pyrestop Insecticida (anv-11310)
  - For use as a pesta lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Amino Acids
BIOST Organic VPH 9.0 Seed Treatment 5-0-0 (abl-8700)

Crop Products: Coppers, fixed
Agri Star® NuCop® 50 WP Agricultural Fungicide/Bactericide (abl-4263) ◆ For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.
Agri Star® COC WP Copper Oxycide Fungicide (abl-0049) ◆ For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.
NuCop® 50DF Fungicide/Bactericide (abl-2556) ◆ For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.
NuCop® HB Fungicide/Bactericide (abl-2939) ◆ For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Calcium Chloride
Albion Plant Nutrition Metalosate Calcium Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6048) ◆ For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Calcium Chloride, Fertilizers, Blended with micronutrients
Albion Plant Nutrition Metalosate Calcium Boron Amino Acid Complex Soluble Powder Foliar Fertilizer with Boron (abl-6047) ◆ For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Calcium Chloride, Fertilizers, Blended with micronutrients, Magnesium Sulfate – Allowed With Restrictions
Albion Plant Nutrition Metalosate Multimineral Amino Acid Complex Soluble Powder Foliar Fertilizer 4-0-0 (abl-6076) ◆ For use as a foliar spray to treat a physiological disorder associated with calcium uptake. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers and Soil Amendments, Blended
Albion Plant Nutrition Metalosate Potassium Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-10427)
Crop Products: Fertilizers, Blended with micronutrients

Albion Plant Nutrition Metalosate Copper Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6054)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Albion Plant Nutrition Metalosate Iron Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6053)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Albion Plant Nutrition Metalosate Manganese Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6051)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Albion Plant Nutrition Metalosate Zinc Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6052)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

Albion Plant Nutrition Metalosate Magnesium Amino Acid Complex Soluble Powder Foliar Fertilizer (abl-6075)

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

TODO: complete the rest of the document with the remaining text.
Crop Products: Copper Sulfate
ARCADIAN EZPOROFF Fungicida & Bactericida Sistémico (arc-14111)  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
ARCADIAN BIODUX RBD Supresor de Plagas Orgánico (arc-14110)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossing, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Boric Acid
MotherEarth Granular Scatter Bait (bsf-5719)
May be used as an insecticide for structural pest control provided there is no direct contact with organic food or crops.

Crop Products: Inoculants
Vault® NP Liquid Inoculant for Soybeans (bsf-0399)
Nodulator® Liquid Inoculant for Pea and Lentil (bsf-0713)

Crop Products: Microbial Products
Serifel Biofungicide (bsf-9102)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Subtilex® NG Biological Fungicide (bsf-8963)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
Ultra Pure Oil Horticultural Insecticide, Miticide and Fungicide (bsf-12653)
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Pheromones
Allure® MD Mating Disruption System for Stored Product Moths (bsf-1271)
Prescription Treatment Brand 4 Allure (bsf-2296)
BASF Allure Stored Product Moth Kit (bsf-10488)

Crop Products: Ferric Phosphate
Bayer Advanced Natria® Snail & Slug Killer Bait Ready-to-Use (bad-1888)
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products
Bayer Advanced Natria™ Disease Control Ready-to-Spray (bad-1889)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Advanced Natria® Disease Control Ready-to-Use (bad-1890)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
Bayer Advanced Natria™ Neem Oil Ready-to-Use (bad-4368)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Advanced Natria® Multi-Insect Control Concentrate (bad-1885)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Advanced Natria® Multi-Insect Control Ready-to-Spray (bad-1886)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Bayer Advanced Natria® Insecticidal Soap Ready-to-Use (bad-1887)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossier, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Biopesticides
Bayer Minuet (gus-11626)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer CropScience MeloCon Prime DC Biological Nematicide (gus-12802)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides
Bayer Contans WG Biological Fungicide (gus-6391)
For use as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides
Bayer Serenade Optimum A Wettable Powder Biofungicide (gus-3975)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade MAX (gus-4424)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Serenade Garden Disease Control Ready to Use (gus-4427) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Jazz A Wettatable Powder Biofungicide (gus-5131) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade Opti A Wettatable Powder Biofungicide (gus-5425) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products
Bayer Serenade ASO (gus-4423) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade Soil (gus-4425) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Concentrate (gus-4426) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Ready to Spray (gus-4428) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Rhapsody (gus-5132) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade 1.34 SC Fungicida-Biológico Bacillus Subtilis Cepa QST 713 (bsa-4841) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Rhapsody 1.34 SC Suspensión Concentrada (bsa-5759) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides
Huma Gro® Proud 3® RTU (bhn-2880)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Huma Gro Thyme Pro (bhn-10466)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Proud 3 (bhn-11447)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Double Play (bhn-14718)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fertilgold Triple Play (bhn-14719)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride
Fertilgold Ca 0-0-0 (bhn-10789)◆
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Cobalt Products
Fertilgold Co 0-0-0 (bhn-11357)◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Products
Fertilgold Cu 0-0-0 (bhn-10975)◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Iron Products
Fertilgold Mo 0-0-0 (bhn-11355)◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Molybdenum Products
Fertilgold Mo 0-0-0 (bhn-11351)◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Potassium Sulfate
Fertilgold K6 0-0-6 (bhn-10887)

Crop Products: Seed Treatments
Fertilgold Microhumic (bhn-11158)

Crop Products: Zinc Products
Fertilgold Zn 0-0-0 (bhn-10977)◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate

Biologa® Secader® Sulfato de Cobre Pentahidratado Fungicida-Bactericida/Concentrado en Suspensión (SC) (bla-10581) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Biologa® Secader® Sulfato de Cobre Pentahidratado Fungicida-Bactericida/Concentrado en Suspensión (SC) (bla-10581) ◆

Crop Products: Chlorine Dioxide

Oxine Sanitizer/Disinfectant/Deodorizer (box-10699)◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Dioxide

Oxine® (AH) Sanitizer Disinfectant Bactericidial/Deodorizer (box-2885)◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

ProOxine AH Sanitizer Disinfectant Fungicidal-Bactericidal-Virucidal (box-3657)◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Livestock Products: Sodium Chlorite, Acidified

Smartdip™ 800 (box-12772)◆
For use as a livestock teat dip.

Processing Products: Acidified Sodium Chlorite

Keeper Professional Post Harvest (box-3346)◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

XG-940 (box-3347)◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Pest Harvest (box-3436)◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Professional Red Meat (box-8762)◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Red Meat (box-8763)◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Chlorine Dioxide

Oxine® (FP) Sanitizer Bactericidial/Deodorizer Disinfectant (box-0075)◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

ProOxine Sanitizer Active ProOxine Disinfectant Fungicidal-Bactericidal (box-0973)◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Purogene Professional Potato Storage Antimicrobial Sanitizer Disinfectant Bactericidal Fungicidal (box-13142)◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Botanical Pesticides

Biotik® Gober Extracto de Gobernadora 90% Fungicida Bactericida. Líquido (bom-7501)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Biological Pesticides

Biotik Ricinus Extracto de Higuerrilla 90% Nematicida-Insecticida. Líquido (bom-7502)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Microbial Products

Biotik Canel Extracto de Canela 90% Insecticida y Acaricida Orgánico (bom-8111)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Garfíl

Biotik Alhíun Extracto de Ajo 98% Repelente E Insecticida. Líquido (bom-6947)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Microbial Inoculants

Raizorg BioFertilizante Líquido (bom-7608)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Microbial Products

Bactisoil Inoculante Biológico de Suelo (bii-11493)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Microbial Inoculants

Raizorg BioFertilizante Líquido (bom-7608)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Trichoderma spp.

Trikoplant Trichoderma sp 100% Fungicida. Líquido (bom-7503)

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Bacillus thuringiensis

BT NOW (bss-13201)

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

---

Crop Products: Hydrogen Peroxide

OxiDate 2.0 (bss-3213)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

TerraClean 5.0 Broad Spectrum Bactericide/Fungicide (bss-4640)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

GreenClean Liquid 5.0 (bss-12406)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

OxiDate 5.0 (bss-12910)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

SaniDate 5.0 (bss-13212)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

OxiDate WTD (bss-12913)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

OxiDate WTD (bss-5819)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.
ZeroTol 2.0 (bss-5846) ◆
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an insecticide ingredient in passive pheromone dispensers.

Crop Products: Hydrogen Peroxide Starting Materials

PerCarb (bss-8484) ◆
Must be mixed with water prior to use. For plant disease control. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Inoculants

TerraGrow (bss-5931)

Crop Products: Neem and Neem Derivatives

AzaGuard (bss-1943) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peroxyacetic/Peracetic Acid

ZeroTol HC (bss-11833) ◆
For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(a) at a concentration of no more than 6% as indicated on the product label.

SaniDate 12.0 (bss-13782) ◆
For disinfecting facility, processing equipment, seed and sexually propagated plant material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Crop Products: Soap

BioSafe Weed & Grass Killer RTU Broad Spectrum Non-Selective Herbicide Concentrate (bss-12311) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

BioSafe Weed & Grass Killer RTU Broad Spectrum Non-Selective Herbicide (bss-13104) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Soap, Ammonium AXXE® Broad Spectrum Herbicide (bss-2930) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Sodium Carbonate Peroxyhydrate

GreenCleanPRO Broad Spectrum Algaecide/Fungicide/Bactericide (bss-2281) ◆
Federal law restricts the use of this substance in food crop production to approved foods uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioSafe Systems GreenClean Granular Algaecide (bss-13190) ◆
Federal law restricts the use of this substance in food crop production to approved foods uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Neem

AzaGuard (bss-11996)

Livestock Products: Peracetic Acid/Peroxyacetic Acid

SaniDate 5.0 (bss-2333) ◆
For sanitizing facility and processing equipment.

Processing Products: Peracetic Acid/Peroxyacetic Acid

SaniDate® 12.0 (bss-2086) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

SaniDate 5.0 (bss-2087) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

StorOx 2.0 Broad Spectrum Bactericide/Fungicide Disinfectant and Sanitizer (bss-2612) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Verdanta N-Vita 9-4-3 Homogenous Granular Organic Fertilizer (bwk-6734)
Verdanta 7-0-7 Homogenous Granular Organic Fertilizer (bwk-10516)
Verdanta Organic V 6-0-5-5 Homogeneous Granular Organic Fertilizer (bwk-10594)

Crop Products: Hydrogen Peroxide
BioWorks PERPose Plus Broad Spectrum Algaecide and Fungicide (bwk-13615)◆ For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Microbial Pesticides
RootShield® PLUS+ WP Biological Fungicide (bwk-3270)◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products
CEASE® Biological Fungicide (bwk-1268)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Bicarbonate
MilStop® Broad Spectrum Foliar Fungicide (bwk-3141)◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum
BioWorks, Inc. BW203N (bwk-12034)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Trichoderma spp.
RootShield® Granules Biological Fungicide (bwk-5181)◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
Molt-X Botanically Based Insecticide/Nematicide (bwk-2357)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
SuffOil-X® Spray Oil Emulsion, Fungicide, Insecticide, and Miticide (bwk-1742)◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Oils, Horticultural
Brandt Organics Crop Mix Liquid Complexed Micronutrients (cle-13073) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Brandt Organics 3% B Liquid Complexed Micronutrients (cle-13073) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Nematicides
Brandt Nema-Q A Biopesticide (cle-4343) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
Saf-T-Side Paraffinic Oil from Petroleum (cle-3767)
Brandt TresOil™ Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2885) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Brandt TriTek™ Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2886) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Saf-T-Side Miticide / Insecticide 800EL (cle-3773) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Saf-T-Side Emulsion d’Huile pour bouillies agricoles Insecticide & Acaricide (cle-5523) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Saf-T-Side Formülsayon sekilli: Emülsiyon Konsantre (EC) Insektisit-Akarisit (cle-6381) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Peroxyacetic/Peracetic Acid
Hye-Clean Out Antimicrobial Solution (cle-5967)
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.801(a) at a concentration of no more than 6% as indicated on the product label.

Crop Products: Wetting Agents
Brandt Organics Ag Aide Spreader Activator (cle-8035)

Crop Products: Zinc Products
Brandt Organics 7% Zn Liquid Complexed Micronutrients (cle-4477)
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.
Brandt Organics 10% Zn Liquid Complexed Micronutrients (cle-4478)
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.
Brandt Organplex 6% Zn Liquid Complexed Micronutrients (cle-12359)
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Chlorine Dioxide
CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-1857) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Dioxide
CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2221) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Processing Products: Chlorine Dioxide
CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-14585) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

CDG Aquadioxide (Contains 0.3% Chlorine Dioxide Aqueous Solution) (cdg-14589) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Copper Sulfate Crystals (col-4073) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable methods as approved by a certifying agent.

Crop Products: Copper Sulfate
Copper Sulfate Crystals (col-4001)◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides
Bacit-21 Bactericida Orgánico Bactericida Agrícola/ Líquido Emulsionable (ans-12816)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FLY-NOT Insecticida Orgánico Extracto Vegetal de Quilaya Insecticida / Líquido Emulsionable (ans-4582)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FUBAGRO Fungicida Bactericida Orgánico Extracto Vegetal de Gobernadora + Pino + Ácido Cítrico Fungicida/Líquido Emulsionable (ans-4583)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NEM-OVER Nematicida Orgánico Extracto Vegetal de Pino + Orégano + Higuernilla Nematicida/Líquido Emulsionable (ans-4583)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

LEPICIT-70 INSECTICIDA Orgánico Extracto de Vegetal de Orégano, Neem y Tolohache Insecticida Agrícola/Líquido Emulsionable (ans-12815)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
FOLI-CU PLUS Sulfato de Cobre Pentahidratado Fungicida Agrícola/Solución Acuosa (ans-5505)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Blended – Allowed With Restrictions

Mainstay Si Organic (cme-11135) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Barrier OA Cellular Fortifier (cme-11136) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Mainstay Calcium OA Calcium based Fertirrigation treatment (cme-11137) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Mainstay Calcium Organic (cme-11148) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Mainstay CalcioAO Fertilizante Inorgánico Líquido (cme-11150) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

PeneCal Organic (cme-11716) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Mainstay Magnesium Organic (cme-11773) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

O-x Mainstay Calcium (cme-12233) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.
Crop Products: Humic Acids – alkali extracted
- O-x Mainstay Si (cme-12294)
  Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.
- O-x PeneCal (cme-12297)
  Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Mined Minerals
- O-x Mainstay Magnesium (cme-12296)
  Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Adjuvants, for use in pesticides
- Kelatex Zn forte Amino Foliar nutrient (cme-10311)
  Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Copper Sulfate
Masterbact Fungicida/Bactericida (dsn-10806)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides
AgroDiseño FQ 1500 Fungicida/Nematicida (dsn-10568) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CETRINO PH Bioinsecticida (dsn-12469) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
ALBAR PH Bioinsecticida (dsn-12474) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum
Pyren (dsn-10908) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides
Dr. Earth Final Stop Pest Control Fungicide (dei-7336)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Disease Control Fungicide Concentrate (dei-7337)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Disease Control Fungicide Concentrate (dei-7338)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Fruit Tree Insect Killer (dei-7339)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers
Dr. Earth Final Stop Pest Control Killer Spray (dei-7340)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Rose & Flower Insect Killer (dei-7341)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Vegetable Garden Insect Killer (dei-7342)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Yard & Garden Insect Killer (dei-7344)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Dr. Earth Final Stop Weed & Grass Herbicide (dei-7343)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Drammatic "ONE" Plant Food 4-4-0.5 (drc-0547)

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use may be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Drammatic "O" Earth Friendly Fertilizer 2-5-1 (drc-1593)

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use may be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Drammatic "K" Earth Friendly Fertilizer 2-5-1 (drc-1590)

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use may be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Drammatic Organic Complete Fertilizer 2-4-1 (drc-12755)

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Drammatic Organic Complete Fertilizer 4-4-1 (drc-12768)

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Crop Products: Boron Products

Drexel Boric Acid Boron Micronutrient (drx-11859)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Drexel Beau-Ron D Soluble Borate Micronutrient (drx-11901)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Dormant Oils

Drexel DamOil Dormant & Summer Spray Oil (drx-11173)

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Drexel DamOil Supreme Dormant & Summer Spray Oil (drx-12462)

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur

Drexel® Sulfur 80 WDG (drx-7383)

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Drexel Suffa Supreme Flowable 6 Pound Elemental Sulfur (drx-13952)

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hypochlorous Acid
VEGGOX CT Broad Spectrum Disinfectant for Crop Mgmt Tools & Production Aids (eaw-13497)◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Hypochlorous Acid
VEGGOX PS Broad Spectrum Disinfectant for Process Sanitation (eaw-13488)◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10480)

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

EnviroChlorite 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10481)

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide
Perasan 'A' Antimicrobial Solution (ent-5117)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Peragreen® 5.6% Antimicrobial Solution (ent-7249)

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Peroxyacetic/Percacetic Acid
BioSide™ HS 15% (Antimicrobial Solution) (ent-2949)

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Peragreen 15% (Antimicrobial Solution) (ent-11059)

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Livestock Products: Acid Activators for Chlorine Dioxide
EnviroTech Activate-O Acid Activator (ent-13094)

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.
Livestock Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-6702)

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

SureCide AH Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10867)

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

ChlorCide Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-11958)

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Processing Products: Acidified Sodium Chlorite

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-6701)

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Peracetic Acid/Peroxyacetic Acid

BioSide™ HS 15% (Antimicrobial Solution) (ent-1708)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2 Antimicrobial Solution (ent-6349)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2C Antimicrobial Solution (ent-6350)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 5.6% Antimicrobial Solution (ent-7248)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 22 Antimicrobial Solution (ent-7289)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan OG (Antimicrobial Solution) (ent-12982)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraspray Ready To Use Sanitizer (ent-13203)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

BioFruit XF-15 (Antimicrobial Solution) (ent-13794)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

EnviroTech ReducX (Fungicide, Bactericide, Virucide) Acid Liquid Sanitizer and Disinfectant (ent-14005)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper Sulfate
BluMaxx Copper Sulfate Liquid Algicide (erc-5513)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

**Processing Products: Detergents**

**EsteriClean Agroalimentaria Detergente Sanitizante (est-8550)◆**
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

**EsteriClean Bio-Seguridad Detergente Sanitizante (est-8684)◆**
For use as a cleaner or sanitizer provided that measures are taken to prevent contact with organically produced products or ingredients.

**Processing Products: Hypochlorous Acid**

**SES® Conservador de alimentos (est-7427)◆**
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.
**SES® Desinfección de alto nivel (est-7428)**
- May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**SES® Desinfectante agrícola (est-7430)**
- May be used in direct contact with post-harvest crop or food at levels approved by the FDA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**SES® Desinfectante de alimentos (est-7431)**
- May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**SES® Fresh Food Preservador de frescura de alimentos (est-13983)**
- May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Adjuvants, for use in pesticides
Evonik BREAK-THRU (deg-2155) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK-THRU S 279 (deg-5201) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK-THRU OE 446 (deg-5402) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK-THRU EM O 7 (deg-6079) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
ISOLAN GO 33 (deg-6080) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
TEGOSTO 85 V (deg-6081) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK-THRU SP 133 (deg-6109) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Evonik BREAK-THRU EM O 5 (deg-7096) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Evonik BREAK-THRU S 200 (deg-7097) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Evonik BREAK-THRU S 301 (deg-7098) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Evonik BREAK THRU® S-233 (deg-7419) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Evonik BREAK THRU S 240 (deg-7420) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Evonik Tegoplant (deg-7642) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK THRU S 321 (deg-8212) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK-THRU OE 440 (deg-8583) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
NONIDET SF 3 (deg-10608) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
TEGO SML 20 (deg-11010) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
AERODISP® W 7520 (deg-11260) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
AEROSIL® 200 (deg-11261) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
AEROSIL® R 972 (deg-11262) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
AEROSIL® R 974 (deg-11263) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
AEROSIL® R 812 S (deg-11264) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 22 Precipitated Silica (deg-11266) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 22 Precipitated Silica (deg-11267) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 20 Precipitated Silica (deg-11269) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 50 Precipitated Silica (deg-11270) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 30 Precipitated Silica (deg-11271) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 340 Precipitated Silica (deg-11270) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SIPERNAT® 350 (deg-11271) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
ZEOFREE® 600 (deg-11272) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BREAK-THRU 100 SL (deg-11275) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
ZEOLEX® 7 A (deg-11283) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
ZEOFREE® PLUS 5782 (deg-11284) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
AERODISP® W 7622 (deg-11285) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SURFNOL 440 (deg-12904) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SURFNOL 465 (deg-12905) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SURFNOL 485 (deg-12906) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
SURFNOL 485W (deg-12907) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.
TEGIN O V (deg-8233) ● For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Processing Products: Peracetic Acid/Peroxycetic Acid
Peraclean® 5 (Peroxycetic Acid Solution) Sanitizer/Disinfectant (deg-0494) ● May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.
Peraclean® 15 (Peroxycetic Acid Solution) Sanitizer/Disinfectant (deg-0495) ● May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.
Peraclean 22 CW (deg-5809) ● May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Bonne Org Sticker Agent for Use in Organic Production (bri-6389)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Surf Org Wetting/Spreading Agent for Use in Organic Production (bri-6390)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Biopesticides
Oxev Ovicide for Use in Organic Production (bri-6813)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Xhanthex Bactericide (bri-11986)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Boron Products, Potassium Chloride
Grow Seven Fosfi-K Org Foliar Fertilizer 1-6-3 (bri-13933)
Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Botanical Pesticides
NemaKill Nematicide for Use in Organic Production (bri-3497)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fender Nematicide (bri-5379)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride
EvergreenOrg 3-3-3 (bri-5659)
For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride
Best-K Org 0-0-13 (bri-10754)
Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Fertilizers, Blended with micronutrients
Magnet-B Org 1-6-3 (bri-10804)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fungicides
Jaque Mate Fungicide for Use in Organic Production (bri-3392)
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

ExcelAg, Corp. USA Cyclops Fungicide for Use in Organic Production & Conventional Production (bri-3974)
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Disease Stop Fungicide for Use in Organic Production (bri-4468)
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Growth Regulators for Plants
Outbreak Plant Growth Regulator (bri-4945)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides
Herbor-G Herbicide (bri-5268)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Weed Crush Herbicide for Use in Organic Production (bri-14769)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils
Aramite Insecticide for Use in Organic Production (bri-2474)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bug Stop Insecticide for Use in Organic Production (bri-4467)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IC Turbo Insecticide for Use in Organic Production (bri-14240)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Vitamin D3
Brat-G Rodent Bait for Use in Organic Production (bri-3551)  
For use as a rodenticide. For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone.

Crop Products: Copper Sulfate
Quimag Quimicos Aguilas Copper Sulfate Crystal (fab-0991) 🟢
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

QUIMAG Quimicos Aguilas Copper Sulfate Crystal Fertilizer (fab-13527) 🟢
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate
Quimag Quimicos Aguilas Copper Sulfate Crystal (fab-9979) 🟢
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Copper Sulfate
Quimag Quimicos Aguilas Copper Sulfate Crystal (fab-7082) 🟢
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Akabrown Acaricida Orgánico Bioacaricida Líquido Emulsionable (grb-3778)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

eBioulzion Plus V0 Insecticida de Amplo espectro de acción Líquido Soluble (grb-3783)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FullKover Orgánico Fungicida Orgánico Inductor de Resistencia Líquido Soluble (grb-3784)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PestilOut Repelente Insecticida Compuesto a Base de Productos Orgánicos Bioinsecticida Líquido Emulsionable (grb-3789)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

TriZpOut Insecticida Biológico-Botánico para el Control de Trips Bioinsecticida Líquido Emulsionable (grb-3791)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioFumigate-Or N+ Biofungicida Orgánico de Suelos Agrícolas Líquido Emulsionable (grb-4981)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Fertilizers, Blended with micronutrients

- K boron Ca Fertilizante foliar de resistencia y calidad Bioestimulante Líquido Concentrado (grb-7455)
  - Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

- Organinovar tres Fertilizante foliar para crecimiento inicial de frutos Bioestimulante Líquido Soluble (grb-7468)
  - Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

- Organinovar uno Fertilizante foliar para prefloración Bioestimulante Líquido Soluble (grb-7470)
  - Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fish Products, Liquid, Stabilized

- Biocharger Bioestimulante Orgánico Líquido Soluble (grb-3782)

Crop Products: Fungicides

- RoyaOut Fungicida Orgánico Microbiológico Líquido Emulsionable (grb-4963)
  - For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

- Best Ultra F Fungicida Microbiológico de Protección Foliar Inductor de Resistencia Sistémica Vegetal Líquido Soluble (grb-3779)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Best Ultra S Fungicida Microbiológico de Amplo Espectro para Enfermedades de Raiz Líquido Soluble (grb-3780)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides

- Bioestimulante Líquido Emulsificable (grb-3781)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Biobacter O Bactericida inductor de resistencia - Biobactericida Líquido soluble (grb-3781)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended

- Fulvimax Alga + Mejorador Orgánico y Biológico de Suelos Líquido Soluble (grb-3785)
  - May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

- Larbiol 2X Larvicida Biológico Bioinsecticida Líquido Soluble (grb-3786)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- MildOut Plus Biofungicida Para el Control de Mildius y Cenicillas Líquido Soluble (grb-3787)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Nemaxxion Biol Nematicida Biológico de Amplo Espectro Bioemestatizador Líquido Soluble (grb-4962)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- BacterGreen Bactericida inductor de resistencia-Biobactericida Líquido Soluble (grb-3784)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide
GC 30 (gcr-11069) ◆

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Adjuvants, for use in pesticides
Suppressor 3112 (hyc-8386)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Suppressor ORG60 (hyc-13110)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Processing Products: Chlorine Materials
San-I-King, No. 451 Liquid Sodium Hypochlorite (hyc-1129)
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Aquatic Plant Products, synthetically extracted
Idai Almar (ida-7645)

Crop Products: Botanical Pesticides
System Max (ida-4639)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
vegex Clean Soil Nematida Agrícola Concentrado Soluble (ida-6426)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Militar Plus Insecticida Agrícola Concentrado Soluble (ida-7238)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Santer (ida-11518)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

System Cu Bactericida Agrícola Concentrado Soluble (ida-5603)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Mim Fungicida Agrícola Concentrado Soluble (ida-8284)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Idai Nature (ida-13571)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Spider Max (ida-5603)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
Umbral Sulfato de Cobre Bactericida Agrícola Concentrado Soluble (ida-7475)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
Umbral Sulfato de Cobre Bactericida Agrícola Concentrado Soluble (ida-7475)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Idai CA Soil (ida-7472)
CA ORGANIC (ida-8452)

Crop Products: Copper Products
idainature Idai Troya (ida-13571)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

System Cu Bactericida Agrícola Concentrado Soluble (ida-5605)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Products
idainature Idai Troya (ida-13571)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Microbial Inoculants
Pseudofos Pseudomonas Fluorescens (lyd-13448)
Crop Products: Microbial Pesticides

Beapest Bioinsecticida (iyd-11005) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Subtilpest Bioinsecticida (iyd-11006) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Thurinpest Bioinsecticida (iyd-11007) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fumpest Bioinsecticida (iyd-11035) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Metapest Bioinsecticida (iyd-11036) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tricopest Bioinsecticida (iyd-12190) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with sodium nitrate

Innovak Global Nutrisorb O Bioestimulante de la Actividad Radicular Fertilizante Orgánico (pqu-7013) ◆
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Crop Products: Microbial Pesticides

NemaRoot Nematida Polvo Humeable (pqu-7012) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Innovak Global Rhizobac Combi Biofungicida Preventivo Polvo Humeable (pqu-7014) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Innovak Global TkRoot Biofungicida Preventivo Polvo Humeable (pqu-7015) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Innovak Global BIOFIT RTU Producto Microbial Polvo Humeable (pqu-7088) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Innovak Global MycoRoot Producto Microbial Polvo Humeable (pqu-7089) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides

Procilcone 100 Wetting Agent Spreader Penetrant (iap-9674) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Elemental Sulfur

IAP Dusting Sulfur (iap-5080) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Oils, Horticultural
PureSpray GREEN Horticultural Spray Oil for Insects and Pest Management (in-3049)
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and styling (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PureSpray GREEN Formula 3 (in-2073)
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and styling (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PureSpray GREEN Formula 2 (in-2072)
For use as a slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

InteGro Magnetic Sulfur Dust (igi-0310)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

InteGro BG Soil Sulfur (igi-0685)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Integro Magnetic Sulfur Dust (igi-0310)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

InteGro Soil Sulfur (igi-0685)
For use as plant disease control, or as an insecticide (including acaricide or mite control).

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and styling (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PureSpray GREEN Formula 3 (in-2073)
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and styling (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PureSpray GREEN Formula 2 (in-2072)
For use as a slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

InteGro Magic Sulfur Dust (igi-9102)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Integro Magnetic Sulfur Dust (igi-0310)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Integro Magic Sulfur Dust (igi-9102)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Integro Magnetic Sulfur Dust (igi-0310)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Integro Magnetic Sulfur Dust (igi-0310)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Integro Magnetic Sulfur Dust (igi-0310)

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Copper Sulfate
AgroQC COPPERSYST Sulfato de Cobre Pentahidratado Fungicida Agricola/Solución Acuosa (ipm-13370)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

pht® Ad-Here SP Deposition Aid (jrs-3825) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Plant Health Technologies Vestis Silicone Surfactant (jrs-6537) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Plant Health Technologies Elimino Antifoaming Agent/Defoaming Agent (jrs-6780) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Simplot Plant Health Technologies SS88 Silicone Surfactant (jrs-14340) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Crop Products: Calcium Chloride
pH Solical Soil and Water Amendment (jrs-0666)修补
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Copper Sulfate
Water Guard WG 2500
Algaecide/Bactericide (jrs-6782)修补
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed
pH Copper Sulfur Dust Fungicide (jrs-0799)修补
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Elemental Sulfur
pH 440 Supreme Spray Oil (jrs-2883)修补
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
pH 415 Supreme Spray Oil Insecticide - Miticide 415 Type Oil (jrs-14336)修补
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peracetic Acid/Peroxyacetic Acid
Water Guard WG 5500 (jrs-7302)修补
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Monterey B.t. Biological Insecticide (lgp-2796) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey B.t. RTU (Ready-To-Use) Biological Insecticide (lgp-4376)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed
Monterey Liquid Copper Fungicide RTU (lgp-6603)

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo® Plus Insect, Slug & Snail Pellets (lgp-2870) 
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Liquid Copper Fungicide RTU (lgp-6603) 

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Ant Control (lgp-4674) 
For as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo Maxx Brand (lgp-12051) 
For as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients
Monterey Dr. Iron® (lgp-0268)

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
Monterey Epsom Salts (lgp-0378) 

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Microbial Pesticides
Monterey Complete Disease Control Brand Aqueous Suspension Biofungicide/Bactericide (lgp-6455) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Complete Disease Control Brand RTU Ready-To-Use Biofungicide/Bactericide (lgp-6454) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides
Monterey Nematode Control (lgp-3282) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
Monterey Horticultural Oil (lgp-2574) 

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrums
Monterey Bug Buster-O (lgp-4823) 

For as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Monterey Garden Insect Spray RTU (lgp-5689) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Insecticidal Soap RTU (lgp-14034) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad
Monterey Garden Insect Spray (lgp-0034) 

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
Agri-Life Fungicide/Bactericide/Algaecide (Igs-6495)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides  
Mar Vista Resources Foam Melter (mav-11604)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Mar Vista Resources VistaSil 100 Silicone Surfactant (mav-11605)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

GreenFurrow Organics Foam Preventer (mav-13441)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

GreenFurrow Organics VistaSil 100 Silicone Surfactant (mav-13442)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Mar Vista Resources GreenFurrow Organics Aqua Buff Acidifier & Buffering Agent (mav-14113)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Aquatic Plant Products, synthetically extracted  
GreenFurrow Organics Seaweed Extract 0-0-1 (mav-11602)

Crop Products: Biopesticides  
GreenFurrow Organics BacStop Bactericide/Fungicide (mav-11784)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 300 All Purpose Insecticide (mav-11785)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 350 All Purpose Insecticide (mav-11786)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 400 All Purpose Fungicide (mav-11787)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 400 All Purpose Bactericide/Fungicide (mav-11788)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

REMCA Organics SuperFix Bactericide/Fungicide (mav-13496)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Born Products, Copper Products, Iron Products, Magnesium Sulfate – Allowed With Restrictions, Manganese Products, Zinc Products  
Mar Vista Resources GreenFurrow Organics MultiMix (mav-13908)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Calcium Chloride, Zinc Products  
GreenFurrow Organics 8% Calcium Chloride (mav-14146)  
For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Grandevo (moi-2794)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo™ PTO (moi-3856)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-601 EP (moi-7452)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Ennoble Biofumigant (moi-11395)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides
Fermentation Products, Herbicides, Microbial Pesticides, Microbial Products
MBI-014 WDG (moi-11715)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Biopesticides, Fermentation Products, Microbial Pesticides, Seed Treatments – Synthetic

**GRANDEVO® ST (moi-11644)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Crop Products: Biopesticides, Fungicides**

**MBI-110 EP Broad-spectrum biofungicide/bactericide Aqueous Suspension (moi-3106)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Amplitude ST Broad-spectrum biofungicide/bactericide Aqueous Suspension (moi-11394)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Crop Products: Botanical Pesticides**

**Regalia® Biofungicide (moi-1575)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Biofungicide Concentrate (moi-1711)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® PTO Biofungicide (moi-3854)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Rx Biofungicide (moi-3855)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia 12 Biofungicide (moi-5307)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia CG Biofungicide (moi-10242)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia Maxx 20 SC Fungicida-Botánico (moi-11398)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**MBI-106 12 Biofungicide (moi-12704)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Marrone Bio Innovations PACESETTER (moi-13975)**
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Hydrogen Peroxide, Peroxyacetic/Peroxacetic Acid**

**EVOCADE A Fungicide, Bactericide, Algicide for Agricultural Uses (moi-13805)**
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers. For use as a pesticide to control firelight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

**Crop Products: Microbial Pesticides**

**MBI-203 WDG (moi-6266)**
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Grandevo WDG Bioinsecticide (moi-7140)**
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i).

**Complete Products List By Company**
Crop Products: Microbial Products

Venerate Bioinsecticide (moi-3903) ♦
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Venerate™ XC Bioinsecticide (moi-4939) ♦
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Majestene Bioinematicide (moi-6393) ♦
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-206 EP (moi-7141) ♦
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

CSC Copper Sulfur Dust Fungicide (csc-0033) ♦
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Elemental Sulfur

CSC DS-90 90% Elemental Sulfur Pastille (csc-9230)
CSC Dusting Sulfur Fungicide-Miticide (csc-3066) ♦
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Zelto (moi-10245) ♦
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Acid Activators for Chlorine Dioxide
MCHEM HYDROFLO CLEANER & PROCESS WATER TREATMENT (mce-13469) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4 ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Chlorine Dioxide
MCHEM MClean 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (mce-20565) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4 ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide
OxiGreen (Antimicrobial Solution) (mce-5411) ◆
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Peroxyacetic/Peroxycetic Acid
Oxi Tech 15 (Antimicrobial Solution) (mce-5413) ◆
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Processing Products: Peroxyacetic Acid/Peroxycetic Acid
OxiGreen (Antimicrobial Solution) (mce-5412) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.
Oxi Tech 15 (Antimicrobial Solution) (mce-5414) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

**Crop Products: Seaweed and Seaweed Products**

**MilAgro Sustain® Deposition Adjuvant (mcf-11758)**
For use as an inert ingredient in combination with permitted active pesticidal ingredients. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

**Spore Quell 5.6% (Antimicrobial Solution) (mcf-11759)**
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

**Crop Products: Peroxyacetic/Peroxacetic Acid**

**Spore Quell 15% (Antimicrobial Solution) (mcf-11757)**
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

**Crop Products: Lyme Disease Control**

**Spore Quell 10% (Antimicrobial Solution) (mcf-11757)**
For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

**Livestock Products: Microbial Products**

**Spore Quell 5.6% (Antimicrobial Solution) (mcf-11758)**
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

**Crop Products: Peroxyacetic/Peroxacetic Acid**

**Spore Quell 15% (Antimicrobial Solution) (mcf-11757)**

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

**Livestock Products: Microbial Products**

**Spore Quell 10% (Antimicrobial Solution) (mcf-11757)**
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

**Crop Products: Peroxyacetic/Peroxacetic Acid**

**Spore Quell 5.6% (Antimicrobial Solution) (mcf-11759)**
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

**Crop Products: Peroxyacetic/Peroxacetic Acid**

**Spore Quell 15% (Antimicrobial Solution) (mcf-11757)**
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Crop Products: Acid Activators for Chlorine Dioxide
FreshFlo 100 Acid Activators for Chlorine Dioxide (mix-8628)
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(i). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Biological Controls
Canadian Beneficial Nematodes Sentry Biocontrol for Fungus Gnats (nrk-7728)
ACDG (nna-13327) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

WONDERFUL R-15 (nna-13392) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BEAUTIFUL Calibre 50 (nna-13393) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ACARON (nna-13394) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SupernNeem (nna-13395) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Products
GLUCO CU 2000 (nna-13439) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate
ELIMINATOR SCu sulfato de cobre pentahidratado Fungicida-Bactericida Concentrado en suspensión (nna-13438) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NEOGEN AquaPrime Peroxide 15 (nec-14523) ◆
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Livestock Products: Acid Activators for Chlorine Dioxide
BioSentry AquaPrime Activator Chlorine Dioxide Activator and Animal Drinking Water Acidifier (nec-13363) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Livestock Products: Chlorine Dioxide
AquaPrime NeoKlor Chlorine Dioxide Precursor For Microbial Control In Water And Wastewater (nec-13361) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). **Crop Products: Botanical Pesticides**

NB ACTIVATOR Adherente Dispersante Penetrante (nbt-12611) ❖

For use as an insecticidal ingredient in combination with permitted active pesticidal ingredients.

**Crop Products: Adjuvants, for use in pesticides**

NB TRIPER (nbt-10272) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Chitin**

NB FUSAR (nbt-13120) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Copper Sulfate**

NB FUNBAC 27 S Fungicida/Concentrado Emulsionable (nbt-10268) ❖

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Neem and Neem Derivatives**

NB Neem 100% Aceite Puro de Neem (nbt-10360)

**Crop Products: Pyrethrum**

Titan-Force Insecticida natural de Piretrina (nbt-11586) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Processing Products: Boron Products**

Nisus Corporation MAXUP Boron 10% Aqueous Dispersion of Sodium Borate For Spraying (nis-13100) ❖

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Processing Products: Boric Acid**

Niban Granular Bait (nis-13497) ❖

May be used as an insecticide for structural pest control provided there is no direct contact with organic food or crops.

**Processing Products: Boronic Acid**

Nisus Corporation MAXUP Boron 10% Aqueous Dispersion of Sodium Borate For Spraying (nis-13100) ❖

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Processing Products: Boric Acid**

Nisus Corporation MAXUP Boron 10% Aqueous Dispersion of Sodium Borate For Spraying (nis-13100) ❖

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Processing Products: Methylated Boron**

Nisus Corporation MAXUP Boron 10% Aqueous Dispersion of Sodium Borate For Spraying (nis-13100) ❖

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Microbial Pesticides**

NB GLYCOM Agente de Control Biológico - Polvo Humectable (nbt-14468) ❖

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Microbial Pesticides**

NB RIZOVER Agente de Control Biológico - Polvo Humectante (nbt-14463) ❖

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Microbial Pesticides**

NB NATU-CROP Insecticida Biológico Agrícola (nbt-10269) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Microbial Pesticides**

NB QUARECZ Agente de Control Biológico - Polvo Humectable (nbt-10270) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Microbial Pesticides**

NB TIME CONTROL Biofungicida (nbt-10271) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Neem and Neem Derivatives**

NB Neem 100% Aceite Puro de Neem (nbt-10360)

**Crop Products: Pyrethrum**

Titan-Force Insecticida natural de Piretrina (nbt-11586) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Microbial Pesticides**

NB Neem 100% Aceite Puro de Neem (nbt-10360)

**Crop Products: Pyrethrum**

Titan-Force Insecticida natural de Piretrina (nbt-11586) ❖

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Coppers, fixed
Nordox 75 WG Wettable Granule Fungicide (nor-3171)
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Nordox 30/30 WG (nor-1337)
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cobre Nordox 75 WG Fungicida Cúprico de Alta Concentración (nor-7659)
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Redshield 750 Fungicida-Bactericida Inorganico Granulos Dispersables (WG) (nor-7860)
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Vormic® Micro Cu30 + Zn30 A protective fungicide for the control of Rust in wheat WETTABLE GRANULE (nor-13188)
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Adjuvants, for use in pesticides

Orange Guard® Spray Adjuvant Water Based Formula Spreader/Sticker (ogi-12369)◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Botanical Pesticides

Orange Guard® Fire Ant Control Water Based Formula (ogi-9288)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Limonene

Orange Guard® Ornamental Plants Concentrate Water Based Formula (ogi-3134)◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: D-limonene

Orange Guard® Home Pest Control Water Based Formula (ogi-9023)◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Orange Guard® Home Pest Control Water Based Formula (ogi-9023)◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.
Crop Products: Elemental Sulfur
OrCal BIO-SUL Slug & Snail Bait (oci-13376)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Lime Sulfur
Rex Lime Sulfur Solution Fungicide - Insecticide - Miticide for Listed Fruits, Nuts, Ornamentals, Roses and Livestock (oci-2765)
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lime Sulfur ULTRA (oci-1520)
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides
Orgachemics Emulsificante (och-8305)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Emulsificante de Aceite Mineral (och-8308)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Super Humectante (och-8307)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Hum 100 (och-8503)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Hum 1050 (och-8504)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Co Emulsificante (och-8304)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Simplexid Spread Wet (och-14282)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Surfocip (och-14283)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Tride HF & HRS (och-14284)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Duocip-Surf (och-14285)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Orgachemics Nonisurf Disperse (och-14286)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Processing Products: Peracetic Acid/Peroxyacetic Acid
BIOXAN 15 F&V (och-8373)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

ORGAGREEN 02 PURE (och-8398)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

ORGACHEMICS VIGOROX 15 FV (och-10745)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Livestock Products: Vitamins
Excential Beta-Key (orf-8882)
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.
Crop Products: Repellents – Allowed With Restrictions
BIODES INSEC Repellent of acarids and insects of organic origin (orp-13056) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides
proan ara-3 (pan-10381) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
proan Cupro-an Fungicida (pan-13048) • For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide
ProKure V Cultivator Liquid Mold & Mildew Eliminator (pks-7120)
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Botanical Pesticides  
Lucava BioCinnamon extracto de canela Emulsión Aceite en Agua Insecticida y Acaricida (qmc-11480)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lucava RetriX4 extracto de tagetes (Tagetes spp.) Concentrado Emulsionable Insecticida Botánico (qmc-11482)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed  
Grupo Lucava Magna-Bon CS 2005 sulfato de cobre pentahidratado Solución Acuosa Fungicida (qmc-13630)  
For use as plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.
Crop Products: Coppers, fixed, Elemental Sulfur

Lucalflow Cu azufre elemental + oxiclouro de cobre Suspensión Acuosa Fungicida (qmc-11533) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur

Grupo Lucava Azufre Perfecto 93 Azufre Elemental Polvo Fungicida-Acaricida (qmc-5293) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Azufre Ñeléctrico Azufre Elemental Polvo Fungicida (qmc-5919) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Azufre Ñolido Mejorador de Suelo Inorgánico (qmc-5935) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Growth Regulators for Plants

Grupo Lucava Vitazyme Regulador de Crecimiento Tipo 1 / Líquido (qmc-13452) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Vita Zuper Regulador de Crecimiento Tipo 1 / Líquido (qmc-13483) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT RAÍCES Regulador de Crecimiento Tipo 1 Líquido (qmc-14657) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT SEMILLAS Regulador de Crecimiento Tipo 1 Líquido (qmc-14658) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT FRUTOS Regulador de Crecimiento Tipo 1 Líquido (qmc-14659) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT CRECIEMIENTO Regulador de Crecimiento Tipo 1 Líquido (qmc-14660) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Lucava Diraxtra80 extracto de aceite de neem Concentrado Emulsionable Insecticida y Aparcidico (qmc-11481) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

Grupo Lucava Lucasoli aceite parafinico Emulsion Aceite Agua Insecticida-Aparcida (qmc-12698) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers and Soil
Desy Orgánico Desinfectante de Alto Nivel (agt-12946)
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Crop Products: Copper Sulfate
INSTILL-O (s) (stj-12513) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

S&H Products List
Complete Products List By Company
OMRI Products List

Crop Products: Acid Activators for Chlorine Dioxide
SAFE-pHix brand LpH 100 Activator & Adjuvant (ath-6958) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.
Livestock Products: Acid Activators for Chlorine Dioxide

SAFE-pHix brand LpH 100 Activator & Adjuvant (ath-7698) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4 ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

SAFE-pHix brand ACT 50 “Activator & Adjuvant” (ath-8177) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4 ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Crop Products: Adjuvants

SaferGro® pH Down pH Adjuster - Complexing Agent (sli-2531)

Crop Products: Boron Products

SaferGro® Biomin® Boron 1-0-0 (sli-2517) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Stabilized

SaferGro® Biorepel Natural Insect Repellent Concentrate (sli-2524) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Humic Acids – alkali extracted

SaferGro® Weed Zap Non-selective Herbicide For Annual Grasses And Weeds Concentrate (sli-2530) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hericides

SaferGro® Weed Zap Non-Selective Herbicide For Annual Grasses and Weeds Ready To Use (sli-3530) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fish Products, Liquid, Stabilized

SaferGro Aqua Power Organic Fish Fertilizer 5-1-1 (sli-3532)

Crop Products: Garlic

SaferGro® Biorepel Natural Insect Repellent Concentrate (sli-2524) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Iron Products

SaferGro® Biomin® Iron 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2520) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions

SaferGro® Biomin® Magnesium 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2521) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Manganese Products

SaferGro® Biomin® Manganese 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2522) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Crop Products: Micronutrients
SaferGro® Promot M2Z Organic Starter Fertilizer (sli-2529)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients
SaferGro® Biomin® Zinc 1-0-0 Complexed Micronutrient For Soil and Foliar Application (sli-2523)
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Chlorine Dioxide

Selectrocide® 12G (smt-6719) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Selectrocide® 2L500 (smt-6720) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Acidified Sodium Chlorite, Chlorine Dioxide

Selectrocide® A5 (smt-7602) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® A12 (smt-6541) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Chitin
Terra Healer Nematicida Fungicida (smr-11109) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
CuProtective Fungicida Bactericida (smr-11041) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SIC 103 Defoamer (sic-12926)

Processing Products: Chlorine Materials, Egg Wash – Allowed With Restrictions, Fruit and Vegetable Wash, post-harvest
Spartan SparCHLOR Chlorinated Sanitizer (spc-5905)
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit Under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production. Refer to specific ingredient categories for applicable use restrictions. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Aquatic Plant Products, synthetically extracted
SeaGrow Seaweeds Based Organic Fertilizer (scp-3870)◆

Crop Products: Calcium Chloride
ProVitaMins Ca 5-0-0 + 12 Ca (scp-8252)◆
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.
PeptoCal 2-0-0 + 8 Ca Hydrolyzed Proteins with CALCIUM (scp-10445)

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

ProVitaMins Ca 4-0-0 + 16 Ca Hydrolyzed Proteins Based Organic Fertilizer Input with Calcium (scp-10515)

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Fertilizers, Blended

AminoSea 7-0-8 Organic Nitrogen Fertilizer Input Based on Hydrolyzed Proteins, Seaweed Extracts (scp-6866)

Crop Products: Fertilizers, Blended with micronutrients

ProVitaMins B 4-0-0 + 8 B (scp-7667)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Cu 5-0-0 + 12 CU (scp-7668)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Mn 5-0-0 + 12 Mn (scp-7675)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Fe 5-0-0 + 12 Fe (scp-7671)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins Zn 5-0-0 + 12Zn (scp-7677)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProVitaMins MX 5-0-0 + TM Hydrolyzed Proteins, Amino Acids, Vitamin based organic fertilizer input with multi trace minerals (scp-8857)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

ProVitaMins Mg 3.5-0-0 + 8Mg (scp-7673)
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Fertilizers, Blended with micronutrients
Micronized Symbys Organics 6-1-1 GROW Concentrated Plant Nutrients (syb-12938) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
Micronized Symbys Organics 1-11-0 BLOOM Bud & Bloom Fertilizer (syb-12939) •
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with micronutrients, Fertilizers, Blended with synthetic magnesium sulfate
Micronized Symbys Organics 0.7-0-0.8 CAL MAG (syb-12940) •
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate, Iron Products
Micronized Symbys Organics 1.5-1.5-1.5 TRANSITION TEA Compost Tea Formula (syb-12942) •
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate, Iron Products
Micronized Symbys Organics 1.5-1.5-1.5 TRANSITION Organic Biological Consortium (syb-12946) •
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Microbial Inoculants
Sym3iotic+ Organic Biological Consortium (syb-13246) •

Crop Products: Microbial Pesticides
Nema Fungus Micro Nematicida y funguicida con acción preventiva contra nematodos y patógenos quíntosinos (sym-6478) •
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides
BioFungus Clean Potente fungicida preventivo y curativo contra fitopatógenos (sym-7438) •

Crop Products: Copper Sulfate
TMTAGRO Kupfer/AP Sulfato De Cobre Al 21% Fungicida y Bactericida Solución Acuosa (fza-13754)  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Acid Activators for Chlorine Dioxide TwinOxide 0.3% ClO2 Solution Component B Sodium Bisulfate Powder Composition (gct-10872) Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b).

Processing Products: Chlorine Dioxide TwinOxide 0.3% ClO2 Solution Component A Sodium Chlorite Powder Composition (gct-10801)
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Magnesium Sulfate – Allowed With Restrictions Magnesium Sulphate Hydrated Epsom Salt Bittersalz (twn-6549) Must be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.
Crop Products: Manganese Products Manganese Sulfate Monohydrate Powder (twn-11329) Must not be used as a herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Crop Products: Zinc Products TwinsBridge Int’l Zinc Sulfate Monohydrate Fertilizer Grade (twn-11419) Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.
Livestock Products: Magnesium TwinsBridge Int’l Feed Grade Magnesium Oxide (twn-7772) Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
Livestock Products: Magnesium Sulfate Magnesium Sulphate Hydrated Epsom Salt Bittersalz (twn-6550) For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.
Livestock Products: Manganese
Manganese Sulfate Monohydrate Powder (twn-11320)◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Livestock Products: Zinc Sulfate
TwinsBridge Int’l Zinc Sulfate Monohydrate For Further Manufacturing of Feed (twn-11420)◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Pirettrino extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-8774)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Larrea® extracto de gobernadora (Larrea tridentata) Funcicida y Bactericida Botánico/Líquido Soluble (uqa-8775)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ULTRACHEM® Mega extracto de gobernadora (Larrea tridentata) Funcicida y BACTERICIDA BOTANICO / LIQUIDO SOLUBLE (uqa-12970)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DISAGRO SUPRALID INSECTICIDA BIOQUIMICO – Alcaloido, Alquil sulfato Argemonina, Berberina, Ricinina, α-Terthienil (uqa-14006)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioProtector argemonina, berberina, ricinina y α-terthienil INSECTICIDA Y/o ACARICIDA BOTANICO / EXTRACTO ACUOSO (uqa-15143)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

PROGRANIC® Nimecide 80 extracto de aceite de neem Insecticida y/o Acaricida / Concentrado Emulsionable (uqa-8776)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR Neem 80 CE extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-3465)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Naturacide Neem CE 80 extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-3466)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Soap

UltraluX® S sales potásicas de ácidos grasos Insecticida y Acaricida / Concentrado Emulsionable (uqa-7617) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demouser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Die Soap K sales potásicas de ácidos grasos Insecticida y Acaricida / Concentrado Emulsionable (uqa-11776) 

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demouser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Processing Products: Botanical Pesticides

Eco Urban argemoina + berberina + ricinina + α-terthienil Insecticida / Extracto Acuoso (uqa-13220) 

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Valent Professional Products DiPel® PRO DF Biological Insecticide Dry Flowable (abb-3279) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioBi® HP Biological Insecticide Wettlable Powder (abb-9521) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari® Biological Insecticide Dry Flowable (abb-9435) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sequra® 32 Bioinsecticida. Larvicida (abb-2071)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Biobit® 32 insecticida biológico contra lepidópteros Polvo mojable (WP) (abb-2679)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Geoda® Bioinsectica Larvicida Biológico Para El Control De Lepidópteros Polvo Mojable (WP) (abb-2680)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aztron™ WDG Biological Insecticide Water Dispersable Granule (abb-2707)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer FlorBac® Insecticida biológico contra orugas Granulado dispersible en agua (WG) (abb-2706) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Foray® 48B Biological Insecticide Flowable Concentrate (abb-0522) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Xtreme DF Insecticida biológico agricola / Flosable seco (abb-0360) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
DiPel® 10G Biological Insecticide Granule (abb-3723)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 5WG Insecticida Biológico De Uso Agrícola Gránulo dispersable en agua (WG) (abb-3756)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac GR Biological Larvicide Granules (abb-8250)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bactimos WG Bacterial Larvicide (abb-11512)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel WG Insecticida Granulado Dispersable (WG) (abb-11955)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel DF Insecticida Biológico / Floable Seco (abb-13306)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 2X Insecticida Biológico Polvo Mojable (P.M.) (abb-13308)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari DF Insecticida Biológico/Floable Seco (abb-13537)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari Microbial Pesticide (abb-13917)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac WG Biological Larvicide Water Dispersible Granule (abb-13979)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

DiTera® DF Biological Nematicide Dry Flowable (abb-3077)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoMax FG Biological Larvicide Fine Granule (abb-8251)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiTera DF Nematicida Biologico / Floable Seco (abb-13307)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Gibberellic Acid

ProVide® 10 SG Plant Growth Regulator Soluble Granule (abb-5050)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® Plus 2X Soluble Powder Plant Growth Regulator (abb-0315)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® 40% Plant Growth Regulator Water Soluble Granule (abb-9526)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® 4% Plant Growth Regulator Solution (abb-9794)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® T&O Plant Growth Regulator (PGR) Solution (abb-3138)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RyzUp® Plant Growth Regulator Soluble Concentrate (SL) (abb-9871)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® 40% GS Acido Giberelico (abb-2540)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® Plus Regulador de Crecimiento Polvo Soluble - SP (abb-2882)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® TVO Plant Growth Regulator Solution (abb-10174)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Growth Regulators for Plants

RyzUp SmartGrass® Plant Growth Regulator Water Soluble Granule (abb-1880)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProTone® SG Plant Growth Regulator Soluble Granule (abb-2103)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ConTego SL Plant Growth Regulator Soluble Liquid (abb-5520)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Gibberellic Acid (abb-5080)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VBC-30396 Plant Growth Regulator Water Soluble Granule (abb-6114)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Acid Activators for Chlorine Dioxide
Verox® Activator DX (vox-7496)  ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.
Verox® Activator DXSP (vox-7497)  ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.
Verox Activator DXS (vox-6379)  ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Livestock Products: Chlorine Dioxide
Verox® - 5HM Animal Health (vox-278)  ◆

Crop Products: Neem and Neem Derivatives
ferti•lome Neem Oil Insecticide•Fungicide•Miticide (vpg-8387)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Natural Guard Brand by ferti-lome Spinosad Soap Ready to Use (vpg-8914)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad
Natural Guard Brand by ferti-lome Spinosad Ready to Spray (vpg-8915)  
For use as a puff lured, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Botanical Pesticides
VXMAS Upside® Insecticida (vxm-12287) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate, Fungicides
VXMAS Devour® Fungicida-Bactericida (vxm-12574) • For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Holeshot Vyota Biotech (vba-13460) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nefrit Vyota Biotech (vba-13461) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Subtek Vyota Biotech (vba-13462) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed
Cueva Fungicide Ready-To-Use Flowable Liquid Copper Fungicide (neu-3101) • For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cueva 2.4 Copper Soap Flowable Liquid Copper Fungicide (neu-3989) • For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Hydro Worxx™ Disease Control Concentrate (neu-7251) • For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Hydro Worxx™ Disease Control Ready To Use (neu-7252) • For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cueva Fungicide Concentrate Flowable Liquid Copper Fungicide (neu-11228) • For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Ferric Phosphate
Sluggo® Slug & Snail Bait (neu-0583) • For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bug-N-Sluggo® Insect, Slug and Snail Bait (neu-2578) • For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides
Fireworxx (neu-11344) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Homeplate RTU (neu-12678) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils
Vegol Insecticidal Oil (neu-3007) • May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum
Pyrol-O RTU (neu-3588) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O (neu-3590) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Hydro Worxx™ Mite & Insect Killer Ready To Use (neu-7255) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Hydro Worxx™ Mite & Insect Killer Concentrate (neu-7299) • For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Pyrol-O Insecticide/Miticide (neu-10817) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Neudorff's Insecticidal Soap Concentrate (neu-4182) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff's Insecticidal Soap RTU (neu-0074) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

KOFA Insecticidal Soap (neu-006) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudosan Insecticidal Soap Ready-to-Use (neu-007) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff® H01 Concentrate Herbicidal Soap (neu-2487) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Finalsan Concentrate Grass and Weed Killer (neu-2489) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Moss-Aside Moss Killer (neu-2602) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NEU1138I Concentrate (neu-5231) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NEU1138I Ready-to-Use (neu-5282) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Hydro Worxx™ Insecticidal Soap 3 in 1 Concentrate (neu-7253) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Hydro Worxx™ Insecticidal Soap 3 in 1 Ready To Use (neu-7254) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff Bug Bait Residential (neu-13266) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Aquatic Plant Products
Kelpgrow Liquid Seaweed Extract 0.1-0.5-1.0 (wce-4311)

Crop Products: Compost, plant materials
West Coast Organic Compost (wcc-2203)

Crop Products: Potassium Sulfate
Natural Plant Growth Enhancer 0-0-0 (wch-3596)

Crop Products: Aquatic Plant Products
Kelpgrow Liquid Seaweed Extract 0.1-0.5-1.0 (wcm-4311)

Crop Products: Potassium Sulfate
Natural Plant Growth Enhancer 0-0-0 (wch-3596)

Crop Products: Aquatic Plant Products
Kelpgrow Liquid Seaweed Extract 0.1-0.5-1.0 (wcm-4311)
Crop Products: Adjuvants, for use in pesticides
BioLink® Spread-Sticker (wba-5012) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BioLink® Buffer & Penetrant with Garlic Juice (wba-9820) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
Organic BioLink® Surfactant & Penetrant (wba-3144) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
BioLink AntiFoam (wba-2475) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
XENA Spreader-Sticker A Biodegradable, Natural Adherent & Spreader For All Crops (wba-14377) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Amino Acids
Organic BioLink® N-14 Fertilizer 14-0-0 Water Soluble Nitrogen (wba-8013)

Crop Products: Aquatic Plant Products, synthetically extracted
Organic BioLink® Seaweed-29 0-0-4.0 (wba-9799)

Crop Products: Fertilizers and Soil Amendments, Blended
Organic BioLink® All-Purpose Fertilizer 0-5-5 (wba-9332)

Crop Products: Fertilizers, Blended with micronutrients
Organic BioLink® Micronutrient Fertilizer Fe-Mn-Zn 0-0-1 (wba-9798) ◆ Must not be used as a herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Garlic
BioLink® Insect Repellant Garlic Juice (wba-9621) ◆ For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Manganese Products
Organic BioLink® Manganese Fertilizer 6% Mn (wba-0348) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Odor Control Products
Organic BioLink® Odor Control (wba-8036)

Crop Products: Oils
GargOil Insect, Mite and Disease Control (wba-12732) ◆ May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Sulfate
Organic BioLink® Potassium Fertilizer 0-0-6 (wba-5010)

Crop Products: Herbicides
SUPPRESS® Herbicide EC (wap-2473) ◆ May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Iron Products
Nutraplex® 5% Iron (wnc-3222) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
Nutraplex® 4% Magnesium (wnc-3223) ◆ May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.
### Crop Products: Manganese Sulfate

**Nutraplex® 5% Manganese with Sulfur (wec-3251)**
- Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

### Crop Products: Zinc Sulfate

**Nutraplex® 10% Zinc with Sulfur (wec-6008)**
- Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

**Crop Products: Manure Tea**

Fluid Compost (wec-7967)
- May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

**Crop Products: Microbial Products**

Nutrio Unlock (wec-12442)

**Crop Products: Oils, Horticultural**

440 Superior Spray Oil (wec-8719)
- For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Shellfish Meal**

Lighthouse Shrimp Shell Soil Amendment (wec-12213)

**Crop Products: Zinc Products**

Foli-Gro® Zinc 7% (wec-0462)
- Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

ProNatural Zinc Plus 1-0-0 (wec-7975)
- Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

BenVireo Zinc (wec-12060)
- Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Adjuvants, for use in pesticides
WinField JetShield Nonionic Spray Adjuvant (wsl-14419)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Boron Products
M Micronutrient Boron 14.3% Granular Borate (wsl-2325)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Boron 15% Plant Nutrition Granular Borate (wsl-12264)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Products
WinField United Organics Copper 5% LS Granular Copper Lignosulfonate Plant Nutrient Compound (wsl-3980)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Iron Products
WinField United Organics Iron 10% LS Granular Iron Lignosulfonate Plant Nutrient Compound (wsl-3981)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Manganese Products
WinField United Organics Manganese 8% LS Granular Manganese Lignosulfonate Plant Nutrient Compound (wsl-6895)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients
WinField United Organics Crop Mix 1 LS Granular Micronutrient Lignosulfonate Plant Nutrient Compound (wsl-6123)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Zinc Products
WinField United Organics Zinc 10% LS Granular Zinc Lignosulfonate Plant Nutrient Compound (wsl-5112)  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Safer® Brand Garden Dust (wsc-5054) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Pyrethrum, Soap

Safer® Brand Tomato & Vegetable Insect Killer II (wsc-40992)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Yard & Garden Insect Killer II (wsc-3157)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Mosquito & Tick Killer (wsc-1202)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Wasp & Hornet Killer (wsc-2043)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Repellents — Allowed With Restrictions

Havahart® Critter Ridder® Deer Repellent (wsc-1279)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DeFence™ by Havahart Rabbit & Deer Repellent (wsc-1521)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Critter Ridder Animal Repellent (wsc-12345)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Critter Ridder Deer & Rabbit Repellent Pellets (wsc-2702)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DeFence™ by Havahart Rabbit and Deer Repelling Pellets (wsc-1521)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand Critter Ridder Animal Repellent Ready-To-Use (wsc-12400)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Safer® Brand Insect Killing Soap with Seaweed Extract II (wsc-9909)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fruit & Vegetable Insect Killer II (wsc-9781)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Rose & Flower Insect Killer II (wsc-9784)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fruit & Vegetable Insect Killer II (wsc-9781)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Brand Moss & Algae Killer & Surface Cleaner Ready to Spray II (wsc-9781)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand End All® Insect Killer (wsc-1484)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algaicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.
Safer® Brand #567 Pyrethrin & Insecticidal Soap Concentrate II (wsc-1889) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossier, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Flying Insect Killer (wsc-2044) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossier, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Ant & Roach Killer (wsc-2047) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossier, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fast-Acting Weed & Grass Killer Concentrate (wsc-3728) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossier, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Livestock Products: Diatomaceous Earth

Safer® Brand Food Grade Diatomaceous Earth (wsc-12126) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Processing Products: Diatomaceous Earth

Concern® Diatomaceous Earth Crawling Insect Killer (wsc-9733) ◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Safer Brand Ant & Crawling Insect Killer - Made From Diatomaceous Earth (wsc-5552) ◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

OMRI Products List

Complete Products List By Company
### Crop Products: Growth Regulators for Plants

RazorMax Estimulante de Raíz Orgánico Fertilizante Orgánico / Polvo (zar-5169)

- May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

### Crop Products: Humic Acids – alkali extracted

Huminova Fertilizante Orgánico / Polvo (zar-4370)

### Crop Products: Microbial Inoculants

- **Crop Products: Plant Extracts**
  - FulviNova 75 Fertilizante Orgánico / Polvo (zar-4369)

- **Crop Products: Microbial Inoculants**
  - FijabiolK Fijador de Potasio Fertilizante Biológico / Líquido (zar-8830)
  - FijabiolN Fijador de Nitrógeno Fertilizante Biológico / Líquido (zar-8831)
  - FijabiolP Fijador de Fósforo Fertilizante Biológico / Líquido (zar-8832)

### Crop Products: Microbial Pesticides

- FungimixAZ Insecticida Biológico / Polvo (zar-8969)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Methazar insecticida biológico / Polvo (zar-8970)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Thompzar Insecticida Biológico/Líquido Emulsionable (zar-8971)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Trichozar Fungicida Biológico / Polvo (zar-8972)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

- Beazar Beauveria Bassiana Insecticida Biológico Polvo humectante (zar-10652)
  - May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
