Livestock Products: Acid Activators for Sodium Chlorite, Acidified
- ABS Encore Pre/Post Sanitizing Teat Dip (abv-12221) ◆
  Must only be used for the generation of acidified sodium chlorite. Use of resulting acidified sodium chlorite must comply with 205.603(a)(28) or 205.603(b)(9).

---

◆ This product is allowed with restrictions. See the Categories section for use restrictions.
■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

1 The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
2 The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
3 The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
4 The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
5 The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
6 The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
7 The cadmium level of this product exceeds 1000 MPN/g. Application to certified organic farms must not contribute to contamination of crops, soil, or water.
8 The Salmonella level of this product exceeds 3 MPN/g. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

Crop Products: Bentonite

Garden Treasure Bentonite (wic-2337)

Crop Products: Diatomaceous Earth

Last Crawl Grain Insect DEstroyer Insecticide Powder Diatomaceous Earth (wic-5326) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Diatomaceous Earth

Barn Fresh Natural Ammonia Control (wic-8090) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Red Lake Diatomaceous Earth with Calcium Bentonite (wic-9325) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Stall Dry Absorbent & Deodorizer (wic-1412) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Fresh Coop Dust Bath (wic-6488) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

White Lake Diatomaceous Earth (wic-11033) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

FeedSource Diatomaceous Earth (wic-11115) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Minerals

Z-Lite Feed Additive Premium HSCAS Formula (wic-7850) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Odor Control Products

ABF Activated Barn Fresh Poultry Litter Ammonia Control (wic-8884)
Activated Barn Fresh Fresh Coop Odor Control (wic-6119)
Activated Poultry Sense Natural Zeolite & Citric Acid Formula (wic-8524)
Activated Barn Sense Zeolite Odor Control Bedding Additive Natural Zeolite & Citric Acid Formula (wic-8525)
Horse Sense Zeolite Odor Stopper Bedding Refresher Granulation Crystals Natural Zeolite Deodorizer (wic-11698)
Poultry Sense Zeolite Odor Stopper Bedding Refresher Natural Zeolite Deodorizer (wic-11698)

Processing Products: Diatomaceous Earth

Last Crawl Grain Insect DEstroyer Insecticide Powder (wic-4455) ◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Last Crawl Insect DEstroyer Insecticide Powder Diatomaceous Earth (wic-5327) ◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Last Crawl Insecticide Powder Insect DEstroyer for Bedbugs & Pet Bedding (wic-6453) ◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Adjuvants, for use in pesticides  
XPANDEX Surfactant Organosilicon Extracted Liquid Miscible (adh-13859)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.  
Crop Products: Aquatic Plant Products, synthetically extracted  
ALGACROP FERTILIZANTE ORGÁNICO GRANULADO (adh-0570)  
ALGACROP L10 FERTILIZANTE ORGÁNICO LÍQUIDO (adh-10715)  

Crop Products: Botanical Pesticides  
CANELCROP Insecticida Agrícola Concentrado Soluble (adh-11574)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.  
ULTRAGARLIC Insecticida Agrícola Concentrado Emulsionable (adh-13129)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.  
CELAPYR CE Aceite de canela + Piretrinas Insecticida Agrícola Concentrado Emulsionable (adh-13029)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.  
REGAUCID PRO Quitina + Aminoácidos + Extracto de regaliz + Corteza de sauce blanco FUNGICIDA AGRÍCOLA CONCENTRADO SOLUBLE (adh-14458)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Copper Sulfate
PROTECTOR Sulfato de cobre pentahidratado. Fungicida Agrícola Solución Acuosa (adh-8755)

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended
AMINOGANIC K30 Fertilizante Orgánico Líquido (adh-14461)
AMINOGANIC Ca Fertilizante Orgánico Líquido (adh-14463)
RADIOO A.A FERTILIZANTE ORGÁNICO LÍQUIDO (adh-14677)

Crop Products: Fertilizers, Blended with micronutrients
AMINOGANIC Zn Fertilizante Orgánico Líquido (adh-14459)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
AMINOGANIC Ca-B-Mo Fertilizante Orgánico Líquido (adh-14462)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
AMINOGANIC Mg Fertilizante Orgánico Líquido (adh-14460)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Humic Acids – alkali extracted
ULTRAUMI FERTILIZANTE ORGÁNICO LÍQUIDO (adh-1622)

Crop Products: Microbial Inoculants
NITROFIX COMPLEX® INOCULANTE BIOLOGICO LIQUIDO (adh-13134)
PSEUDOMIX SOL-P® INOCULANTE BIOLOGICO LIQUIDO (adh-13135)

Crop Products: Microbial Products
BIOBACIL Bacillus subtilis Fungicida Agrícola Concentrado Soluble (adh-8475)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIO BT Bacillus thuringiensis Insecticida Agrícola Concentrado Soluble (adh-8476)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOVERIA Beauveria bassiana Fungicida Agrícola Polvo Humectable (adh-10367)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NEMAFIN Paecilomyces lilacinus Nematicida Agrícola Polvo Humectable (adh-10368)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RIZIMUM Metarhizium anisopliae Insecticida Agrícola Polvo Humectable (adh-10369)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

STREMICID SC® Streptomyces spp. FUNGICIDA AGRÍCOLA CONCENTRADO SOLUBLE (adh-13136)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Molasses
SUGARCROP FERTILIZANTE ORGÁNICO LIQUIDO (adh-1714)

Crop Products: Soap
ULTRASOAP Ácidos grasos + Sales potásicas INSECTICIDA AGRÍCOLA SUSPENSIÓN ACUOSA (adh-10716)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demoster, herbicide or insecticide.

When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Copper Products
CONAT (aah-13322) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate
FISHER CU (aah-13321) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Beauver Insecticida Agrícola Polvo Humectable WP (abn-14289) ◆
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Diatomaceous Earth
Agrobionsa Diata-Sin (abn-5636) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural DME (abn-6402) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Natural DME (abn-14293) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides
Tricoder-Forte Fungicida Agrícola Polvo Humectable WP (abn-5634) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Lila-Sin Nematicida Agrícola Polvo Humectable WP (abn-5637) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Meta-Sin Insecticida Agrícola Polvo Humectable WP (abn-5638) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Pae-Sin Insecticida Agrícola Polvo Humectable WP (abn-5639) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agrobionsa Tricho-Sin Fungicida Agrícola Polvo Humectable WP (abn-5640) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Tri-Sin Insecticida Agrícola Polvo Humectable WP (abn-5641) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Destrux Insecticida Agrícola Polvo Humectable WP (abn-5643) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Elicitor Fungicida Agrícola Polvo Humectable WP (abn-5644) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Entomotri Insecticida Agrícola Polvo Humectable WP (abn-5645) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lilac Nematicida Agrícola Polvo Humectable WP (abn-5646) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pae-Plus Insecticida Agrícola Polvo Humectable WP (abn-5647) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Meta-Tron Insecticida Agrícola Polvo Humectable WP (abn-5651) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pae-Tron Insecticida Agrícola Polvo Humectable WP (abn-5652) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Meta-Tron Insecticida Agrícola Polvo Humectable WP (abn-5653) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Meta-Tron Insecticida Agrícola Polvo Humectable WP (abn-5654) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nem-Out Nematicida Agrícola Polvo Humectable WP (abn-5632) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lila-Plus Nematicida Agrícola Polvo Humectable WP (abn-6397) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Meta-Plus Insecticida Agrícola Polvo Humectable WP (abn-6388) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Microbial Products
Agrobionsa CONSORTIUM Fungicida Agrícola Polvo Humectable WP (abn-12555) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Agrobionsa Greena Fungicida Agrícola Polvo Humectable WP (abn-12494) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Iron Products
FERTICELL® HIERRRO (aav-13857)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Zinc Products
FERTICELL® ZINC 40 (aav-13815)  
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Copper Sulfate
Cu-ProTech agronuve Fungicida/Bactericida (anv-19385)  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients
Agronuve innovando valor BIOAMIN PLUS Elíctor Vegetal (anv-11688)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fungicides
Agronuve innovando valor BOTRIMIL Fungicida (anv-8309)  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides
Agronuve innovando valor NOT FUNGUS Fungicida/Nematicida (anv-8258)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Silicate, aqueous
Agronuve Sili-K Insecticida/Fungicida (anv-6803)  
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum
Agronuve innovando Valor Pyrestop Insecticida (anv-11310)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Products
Codicobre Fertilizante Inorgánico Líquido
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented and verifiable method as approved by a certifying agent.

Crop Products: Botanical Pesticides
SAWA Plus fungicida-bactericida Extracto Vegetal de Gobernadora + Aceite Vegetal de Pino Fungicida / Líquido emulsionable
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides
Soya-Plus Aceite de Soya
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Humic Acids – alkali extracted
Soya-Plus Aceite de Soya
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides
Impacto 30-30 Extracto de Neem+Extracto de Ajo+Extracto de crisantemo
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Diatomaceous Earth
Tierras Diatomeas Algas Fosilizadas (adu-11985)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
Gama-Plus Citrolina Emulsificada Coadyuvante, humectante (adu-12134)  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Bio-K Plus Sales Potásicas de Ácidos Grasos Coadyuvante (adu-11984)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

Crop Products: Botanical Pesticides
ECO-1 Garden Spray Concentrate (abj-10436) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ECO-1 Ready To Use Garden Spray (abj-10437) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ECO-1 Fruit & Vegetable Spray Concentrate (abj-11962) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ECO-1 Fruit & Vegetable Spray Ready To Use (abj-11963) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ECO-1 40 Broad-Spectrum Insecticide, Miticide, and Fungicide (abj-13099) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
AzaSol Non-Oil Based, Water Soluble Powder (abj-5907) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AzaSol WSP Non-Oil Based, Water Soluble Powder (abj-11949) ◆
  For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Copper Sulfate
ARCADIAN EPZPOROFF Fungicida & Bactericida Sistémico (arch-14111) ✦
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
ARCADIAN BIODUX RBD Supresor de Plagas Orgánico (arch-14110) ✦
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Mined Minerals, unprocessed

Crop Products: Botanical Pesticides

ARVENIS TARSSUS BIOBOTANIC INSECTICIDE (aat-13687) •
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ARVENIS XILOTROM BIOBOTANIC FUNGICIDE (aat-13688) •
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides

ARVENIS NEMAQUILL BIOBOTANIC NEMATICIDE (aat-13690) •
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

agroarven NEMOQUILL Extracto Oleoso de Labiadas Nematicida Agrícola/Líquido Emulsionable (aat-14610) •
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants

Factor Coloidal Eko Coadyuvante Agrícola/Líquido (arv-11660)

Nautilus Fertilizante Organico/Líquido (arv-4792)

Crop Products: Botanical Pesticides

Tundra Fungicida/Liquido (arv-5175) •
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Polysulfide

Ambios XPR Fungicida/Liquido (arv-8172) •
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Bactria Fungicida - Bactericida/Liquido (arv-5174) •
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with uncomposed manure

AgriBat Fertilizante Organico/Liquido (arv-4967) •
May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Crop Products: Microbial Inoculants

Voltán Inoculante/Polvo (arv-6348)

Crop Products: Microbial Pesticides

Kastelo Nematicida/Polvo (arv-6428) •
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Apolo® Fungicida/Polvo (arv-6645) •
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides

Majesty Nematicida Organico/Liquido (arv-5195) •
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Auto-Chlor System Oxymize (aut-11438)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.
Processing Products: Chlorine Equipment

Indutabs Inductor Calcium Hypochlorite Tablets (ppg-13740)
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Accu-Tab Calcium Hypochlorite Tablets (ppg-13806)
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Livestock Products: Minerals

Bactericide - Bleach

Use Water Treating Agent - Algaecide - Industrial Applications and Swimming Pool Inductional Calcium Hypochlorite Granules for Water Treatment Agent - Algaecide - Bactericide - Bleach (ppg-5284)
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in unprocessed crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act, except that chlorine products may be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.
Crop Products: Acid Activators for Chlorine Dioxide
Bactersan Bi-Pack System CD2 (bat-10561) ◆ Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine dioxide may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Livestock Products: Chlorine Dioxide
Bactersan Bi-Pack System CD1 (bat-10560) ◆ Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Processing Products: Acid Activators for Chlorine Dioxide
Bactersan Bi-Pack System CD2 (bat-10366) ◆ Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b).

Processing Products: Chlorine Dioxide
Bactersan Bi-Pack System CD1 (bat-10364) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Fertilgold XT 4-0-0 (bhn-13851) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Botanical Pesticides
Huma Gro® Proud 3® RTU (bhn-2880) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Boron Products
Fertilgold B 0-0-0 (bhn-10974) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Huma Gro Promax (bhn-14883) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride
Fertilgold Ca 0-0-0 (bhn-10789) ◆
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Cobalt Products
Fertilgold Co 0-0-0 (bhn-11357) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Products
Fertilgold Cu 0-0-0 (bhn-10975) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers and Soil Amendments, Blended
Fertilgold K Hume (bhn-11348) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with micronutrients
Fertilgold MICROs 1 0-0-0 (bhn-10888) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
Fertilgold Mg 0-0-0 (bhn-10616) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Humates
Fertilgold 1-3mm (bhn-10640)
Fertilgold 6 mm(-) (bhn-10641)
Fertilgold Greens (bhn-10642)
Fertilgold Powder (bhn-10643)
HUMA BURST 1-3mm (bhn-10719)
Fertilgold Microhumic (bhn-11157)

Crop Products: Humic Acids – alkali extracted
Fertilgold K Hume (bhn-11873)
Fertilgold Soluble Powder (bhn-13821)
Crop Products: Iron Products
Fertigold Fe 0-0-0 (bhn-10976) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Manganese Products
Fertigold Mn 0-0-0 (bhn-11355) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Molybdenum Products
Fertigold Mo 0-0-0 (bhn-11351) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Potassium Sulfate
Fertigold K6 0-0-0 (bhn-10887)

Crop Products: Seed Treatments
Fertigold Microhumic (bhn-11158)

Crop Products: Zinc Products
Fertigold Zn 0-0-0 (bhn-10977) ◆ Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Chlorine Dioxide
Oxine Sanitizer/Disinfectant/Deodorizer (box-10699) ◆ Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Dioxide
Oxine® (AH) Sanitizer Disinfectant Bacteriostat/Deodorizer (box-2885) ◆ Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

ProOxine AH Sanitizer Disinfectant Fungicidal-Bactericidal-Virucidal (box-3657) ◆ Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Livestock Products: Sodium Chlorite, Acidified
Smart Dip™ 800 (box-12772) ◆ For use as a livestock teat dip.

Processing Products: Acidified Sodium Chlorite
Keeper Professional Post Harvest (box-3346) ◆ For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

XG-940 (box-3347) ◆ For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Post Harvest (box-3436) ◆ For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Professional Red Meat (box-8762) ◆ For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Red Meat (box-8763) ◆ For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Chlorine Dioxide
Oxine® (FP) Sanitizer Bacteriostat/Deodorizer Disinfectant (box-0075) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

ProOxine Sanitizer Active ProOxine Disinfectant Fungicidal-Bactericidal (box-0973) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Purogene (box-6601) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.
Purogene Professional Potato Storage
Antimicrobial Sanitizer Disinfectant
Bactericidal Fungicidal (box-13142) ◆
May be used in direct contact with post-harvest

Crop Products: Bacillus thuringiensis
BT NOW (bss-13201)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hydrogen Peroxide
OxiDate 2.0 (bss-3213)
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

OxiDate Tree and Vine (bss-11914)
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Neem and Neem Derivatives
AzaGuard (bss-1943)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peroxyacetic/Peracetic Acid
ZeroToi HC (bss-11883)
For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

Crop Products: Soap
BioSafe Weed & Grass Killer Broad Spectrum Non-Selective Herbicide Concentrate (bss-12911)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.  
When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, rights of ways, building perimeters) and ornamental crops.

BioSafe Weed & Grass Killer RTU Broad Spectrum Non-Selective Herbicide (bss-13104)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.  
When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, rights of ways, building perimeters) and ornamental crops.

Crop Products: Soap, Ammonium AXXE® Broad Spectrum Herbicide (bss-2930)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.  
When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, rights of ways, building perimeters) and ornamental crops. When used as animal repellent, may only be used as a large animal repellent and substance must not contact soil or edible portion of crop.
Crop Products: Sodium Carbonate
Peroxhydrate
GreenCleanPRO Broad Spectrum
Algaecide/Fungicide/Bactericide (bss-2281)
Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioSafe Systems GreenClean Granular Algaecide (bss-13190)
Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Neem
Azaguard (bss-11986)

Livestock Products: Peracetic Acid/Peroxyacetic Acid
SaniDate 5.0 (bss-2333)
For sanitizing facility and processing equipment.

Processing Products: Peracetic Acid/Peroxyacetic Acid
SaniDate® 12.0 (bss-2086)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.
SaniDate 5.0 (bss-2087)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.
StorOx 2.0 Broad Spectrum Bactericide/Fungicide Disinfectant and Sanitizer (bss-2612)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper Products
Copper Sulfate (Pentahydrate) Granular (cda-12864) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Iron Products
Ferrous Sulfate (Heptahydrate) FS/20 Deep Green (cda-11030) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Ferrous Sulfate (Monohydrate) FS/30 A Dry, High Analysis Iron Sulfate for Agriculture (cda-14165) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
Magnesium Sulfate Monohydrate Granular (cda-10792) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.
Magnesium Sulfate (Heptahydrate) MGO/16 (cda-14176) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Manganese Products
Manganese Sulfate Monohydrate Mn/31 Granular (2-4 MM) (cda-13828) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Zinc Products
Zinc Sulfate (Monohydrate) ZN/35 Granular (2-4MM) (cda-12722) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.
Zinc Sulfate (Monohydrate) ZN / 35 Powder (cda-14086) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Javelin WG Biological Insecticide (ttc-0101) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agree® WG Biological Insecticide (ttc-8145)
◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Deliver® Biological Insecticide (ttc-9170) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Able® 50 WDG Biological Insecticide (ttc-3186) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CoStar® Biological Insecticide (ttc-1532) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Condor WP Wettability Powder Bioinsecticide (ttc-2628) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Thuricide® HPWP Biological Insecticide (ttc-2673) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Thuricide® HPC-O for Home & Gardens Biological Insecticide Easy-to-Mix Liquid Concentrate (ttc-2708) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

TRIDENT Biological Insecticide (ttc-7169) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides
MeloCon WG Biological Nematicide (ttc-6525)
◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Fungicides

SoliGard® Microbial Fungicide (ttc-0551) ◆
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

PFR-97 20% WDG Microbial Insecticide (ttc-2838) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Double Nickel 55™ Biofungicide (ttc-2901) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Amylo-X Biofungicide (ttc-2980) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Double Nickel LC Biofungicide (ttc-2981) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

LifeGard LC Biological Plant Activator (ttc-13606) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

LifeGard WG Biological Plant Activator (ttc-7169) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Triact® 70 Fungicide/Miticide/Insecticide (ttc-9234) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Neem Oli RTU Fungicide/Miticide/Insecticide (ttc-4003) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Virus Sprays

Gemstar® LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9821) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

DES-X™ Insecticidal Soap Concentrate (ttc-1785) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Seduce Insect Bait Ant, Earwig, and Cutworm Bait (ttc-1923) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Oxide+ Deposition Control (che-6621) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.
RTU Oxide + (che-8925) ◆ Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Processing Products: Chlorine Materials

Oxicide+ Deposition Control (che-6622) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

RTU Oxide + (che-8789) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

PACHAMAMA KALLPA 12-6-1 ORGÁNICO (cgs-14494)
PACHAMAMA YAKU 3-2-2 ORGÁNICO (cgs-14498)
PACHAMAMA KALLPA 8-5-1 ORGÁNICO (cgs-14493)

Crop Products: Fertilizers, Blended with sodium nitrate
Greenhow GreenBack NISORG 15-0-2 ORGÁNICO Fertilizante prilado para uso en agricultura orgánica y ecológica (cgs-12876)
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
PACHAMAMA MAGOX 16 ORGÁNICO Sulfato de Magnesio Heptahidratado (cgs-14524)
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Manure, processed
Greenhow GreenBack S11 ORGÁNICO Fertilizante Orgánico Solido 3-3-3+40% MO + 7EM (cgs-12843)

Crop Products: Potassium Chloride
Greenhow GreenBack KORG 0-0-60 ORGÁNICO Fertilizante Granular (cgs-12874)
Must be applied in a manner that minimizes chloride accumulation in the soil.

Crop Products: Potassium Sulfate
Greenhow GreenBack SUPORG 0-0-52+18(s) ORGÁNICO Fertilizante en cristales (cgs-12875)

Processing Products: Hypochlorous Acid
Agrowave Plant Wash (dga-12674)
May be used in direct contact with post-harvest crop or fruit at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Copper Sulfate
Masterbac Fungicida/Bactericida (dsn-10806) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Plant Extracts
Trizym 220 (dsn-11519) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Paemyc 112 (dsn-11559) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
CETRINO PH Bioinsecticida (dsn-12469) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
ALBAR PH Bioinsecticida (dsn-12474) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Chlorine Dioxide

Durtron Chlorine Dioxide 0.2% Concentrate Tablet (dut-7526) ◆ May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Copper Sulfate
AgriTec Algicide/Bactericide (eal-10433)  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CopCheck (eal-14003)  
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed
ET-F Algicide/Bactericide/Fungicide (eaf-8838)  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

COP-KLEEN Algicide/Bactericide/ Fungicide (eaf-14869)  
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

**Crop Products: Hypochlorous Acid**

VEGGOX CT Broad Spectrum Disinfectant for Crop Mgmt Tools & Production Aids (eaw-13497)

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

**Processing Products: Hypochlorous Acid**

VEGGOX PS Broad Spectrum Disinfectant for Process Sanitation (eaw-13488)

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Chlorine Dioxide
EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10480)
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

EnviroChlorite 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10481)
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide
Perasan 'A' Antimicrobial Solution (ent-5117)
For use as a plant disease control or an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.
Peragreen® 5.6% Antimicrobial Solution (ent-7249)
For use as a plant disease control or an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Peroxyacetic/Peracetic Acid
BioSide™ HS 15% (Antimicrobial Solution) (ent-2949)
For disinfecting facility, processing equipment, seed and asexually propagated plant material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.
Peragreen 15% (Antimicrobial Solution) (ent-11509)
For disinfecting facility, processing equipment, seed and asexually propagated plant material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Livestock Products: Acid Activators for Chlorine Dioxide
EnviroTech Acivate-O Acid Activator (ent-13094)
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(10)(i). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.
Livestock Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-6702)

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

SureCide AH Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10867)

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

ChlorCide Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-11958)

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Processing Products: Acidified Sodium Chlorite

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-6701)

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Peracetic Acid/Peroxyacetic Acid

BioSide™ HS 15% (Antimicrobial Solution) (ent-1708)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2 Antimicrobial Solution (ent-6349)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2C Antimicrobial Solution (ent-6350)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 5.6% Antimicrobial Solution (ent-7248)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 22 Antimicrobial Solution (ent-7289)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan OG (Antimicrobial Solution) (ent-12982)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraspray Ready To Use Sanitizer (ent-13203)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

BioFruit XF-15 (Antimicrobial Solution) (ent-13794)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

EnviroTech ReducX (Fungicide, Bactericide, Virucide) Acid Liquid Sanitizer and Disinfectant (ent-14005)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan ‘A’ Antimicrobial Solution (ent-5118)

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper Sulfate
BluMaxx Copper Sulfate Liquid Algaeicide (ecr-5513) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BREAK-THRU OE 440 (deg-8583)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

NONIDET SF 3 (deg-10608)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

TEGO SML 20 (deg-11010)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AERODISP® W 7520 (deg-11280)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® 200 (deg-11261)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® R 972 (deg-11262)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® R 974 (deg-11263)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AEROSIL® R 812 S (deg-11264)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 22 Precipitated Silica (deg-11266)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 22 S Precipitated Silica (deg-11267)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 20 Precipitated Silica (deg-11268)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 30 Precipitated Silica (deg-11269)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 34 Precipitated Silica (deg-11270)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SIPERNAT® 350 (deg-11271)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ZEOLFREE® 600 (deg-11272)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

BREAK-THRU 100 SL (deg-11275)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ZEOLEX® 7 A (deg-11283)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

ZEOLFREE® PLUS 5782 (deg-11284)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

AERODISP® W 7622 (deg-11285)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 440 (deg-12904)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 465 (deg-12905)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 485 (deg-12906)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

SURFYNOL 485W (deg-12907)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

TEGIN O V (deg-8233)  
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Processing Products: Peracetic Acid/Peroxycetic Acid
Portealän® 5 (Peroxycetic Acid Solution)  
Sanitizer/Disinfectant (deg-0494)  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Portealän® 15 (Peroxycetic Acid Solution)  
Sanitizer/Disinfectant (deg-0495)  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraclean 22 CW (deg-5809)  
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Bonne Org Sticker Agent for Use in Organic Production (bri-6389)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Surf Org Wetting/Spreading Agent for Use in Organic Production (bri-6390)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

**Crop Products: Biopesticides**

- **OMRI Products List**
- **Complete Products List By Company**

Oxev Ovicide for Use in Organic Production (bri-6813)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Xanthex Bactericide (bri-11986)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Boron Products, Potassium Chloride**

Grow Seven Fosfi-K Org Foliar Fertilizer 1-6-3 (bri-13692)
Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

**Crop Products: Calcium Chloride, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride**

EvergreenOrg 3-3-3 (bri-5659)
For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

**Crop Products: Fertilizers, Blended Humiplant (bri-5130)**

**Crop Products: Fertilizers, Blended with micronutrients**

Fosfi-Cal Org 1-8-0 (bri-5956)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Fertilizers, Blended with micronutrients, Potassium Chloride**

Magnet-B Org 1-6-3 (bri-10804)
Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

**Crop Products: Fungicides**

Jaque Mate Fungicide for Use in Organic Production (bri-3392)
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Crop Products: Growth Regulators for Plants**

Outbreak Plant Growth Regulator (bri-4945)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Herbicides**

Herbor-G Herbicide (bri-5268)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Oils
Aramite Insecticide for Use in Organic Production (bri-2474)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bug Stop Insecticide for Use in Organic Production (bri-4467)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IC Turbo Insecticide for Use in Organic Production (bri-14240)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bent Insecticide for Use in Organic Production (bri-2690)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Vitamin D3
Brat-G Rodent Bait for Use in Organic Production (bri-3551)
For use as a rodenticide. For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone.

Crop Products: Copper Sulfate
Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0991) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

QuIMAG Quimicos Águila Fertiazul Sulfato De Cobre Pentahidratado (fab-8239) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Quimag Quimicos Aguila Copper Sulfate Crystal Fertilizer (fab-13527) ◆ Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate
Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0997) ◆ For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Copper Sulfate
Quimag Quimicos Aguila Copper Sulfate Crystal (fab-7082) ◆ For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Crop Products: Fertilizers and Soil Amendments, Blended
Fernatol Humatos (fno-12682)

Crop Products: Trichoderma spp.
Fernatol Trichoderma Fungicida Biológico (fno-12683) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Worm Castings
Fernatol Humus de Lombriz (fno-6296)

Fernatol Premium 1.0-0.0-7.0 +ME+17.25%
(fno-12685)

FIASA Terratrina Insecticida-Acaricida (fia-5619) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FIASA Concentrado Repelente De Ajo Orgánico (fia-11177) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Alfa Kill Repelente Ajo-Chile-Canela (fia-11182) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sns Piretros Insecticida-Acaricida (fia-11184) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides
Alluet Coadyuvante Súper Extensor (fia-5739) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

FIASA Respíne Coadyuvante Adherente (fia-11180) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Bistol G Coadyuvante Acidificante (fia-12007) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

FIASA Respíne Coadyuvante Orgánico Adherente Concentrado Emulsionable (fia-13285) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

FIASA Xtender Coadyuvante Súper Extensor (fia-5116) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

FIASA Fiacu Sulfato De Cobre Pentahidratado (fia-14360) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FIASA Arturus Bioinsecticida-Acaricida (fia-13877) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FIASA Hassasín Bioinsecticida-Acaricida (fia-14260) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed
FIASA Fiacu Sulfato De Cobre Pentahidratado Fungicida Agrícola (fia-11178) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Systcooper Sulfato De Cobre Pentahidratado Fungicida Agrícola (fia-12008) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Coppers, fixed
FIASA Fiacu Sulfato De Cobre Pentahidratado Fungicida Agrícola (fia-11178) ◆

FIASA Proal Fertilizante Orgánico Algas Marines Suspensión Acuosa (fia-13889)  
FIASA Completo Fertilizante Orgánico Bioestimulante Orgánico (fia-14200)

Crop Products: Fertilizers, Blended
FIASA Orthosil-36 Mejorador, Acondicionador, Y Potencializador De Suelos Y Plantas (fia-10079)  
Ager Si Mejorador, Acondicionador Y Potencializador De Suelos Y Plantas (fia-14936)

Crop Products: Fungicides
FIASA Mycelia Fungicida Biológico Agrícola (fia-12009)  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Iron Products
FIASA FIA FE Quelato de Fierro Fertilizer (fia-13888)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
FIASA Fia Green Mg Fertilizante Líquido de Magnesio Fertilizer (fia-13887)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

FIASA Nutriquel Magnesio Plus Fertilizante Líquido de Magneso Fertilizer (fia-14771)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Microbial Products
FIASA BioSutil Bs Inoculante Bacillus Subtilis (fia-5617)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bac Fos Inoculante Bacillus Subtilis (fia-12006)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FIASA BioSutil Bs Fertilizante Orgánico Inoculante Bacillus Subtilis Suspensión Concentrada (fia-13292)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
FIASA FlyKill Ácidos grasos + Sales Potásicas Insecticida Agrícola Suspensión acuosa (fia-6163)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

FIASA Sterminar Nematicida E Insecticida Botánico (fia-6163)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Nether Fly Ácidos grasos + Sales Potásicas Insecticida Agrícola Suspensión acuosa (fia-11183)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Fulvic Acids

FIASA Mycelia Fungicida Biológico Agrícola (fia-12009)  
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

GreenPlanet Medi One 4-3-3 1Part Nutrient (hit-2222)
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Crop Products: Adjuvants, for use in pesticides
Kinetic® A Nonionic Wetter/Spreader/Permeant Adjuvant (hcc-2663) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Manganese Products
EcoMate® 5 Mn (hcc-2913) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
EcoMate 4 Mg (hcc-5235) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Oceanic Products
EcoMate® 5 Fe (hcc-2866) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients
EcoMate® Crop Mix (hcc-3286) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Oils, Horticultural
OMNI SUPREME SPRAY (INSECTICIDE-MITICIDE) LIQUID (hcc-2461) ◆
For use as a seed treatment (including insecticide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

OMNI Oil 6 (Insecticide-Miticide) Liquid (hcc-6699) ◆
For use as an insecticide (including insecticide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
Umbra Sulfato de Cobre Bactericida Agricola Concentrado Soluble (ida-7475)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
System Cu Bactencia Agricola Concentrado Soluble (ida-5605)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides
Equi Max (ida-5602)
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Natural Equibasic (ida-6341)
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Iron Products
Idai Algafer (ida-7698)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients
Bioaluminium Fertilizante Líquido Inorgánico (ida-4851)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

IDAI BROTAVERD FERTILIZANTE INORGÁNICO LÍQUIDO (ida-6283)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Natural Bio-S (ida-6261)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

BIOAZUFRE (ida-8451)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Molasses
Idai Fertique (ida-7474)
FULVIOORGANIC (ida-8453)

Crop Products: Potassium Chloride
Idai K Plus (ida-10662)
Must be applied in a manner that minimizes chloride accumulation in the soil.

IV Organic 3-In-1 Plant Guard WHITE (iva-12078) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Adjuvants, for use in pesticides

- pH® Ad-Here SP Deposition Aid (jrs-3825) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
- Plant Health Technologies Vestis Silicone Surfactant (jrs-6537) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
- Plant Health Technologies Elimino Antifoaming Agent/Defoaming Agent (jrs-6780) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.
- Simplot Plant Health Technologies SS88 Silicone Surfactant (jrs-14340) ◆ For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Calcium Chloride

- pH® Soilicidal Soil and Water Amendment (jrs-0866) ◆ For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Copper Sulfate

- Water Guard WG 2500 ◆ For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

- pH® Copper Sulfur Dust Fungicide (jrs-0799) ◆ For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Elemental Sulfur

- pH® Dryout Dust (jrs-4758) ◆ For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

- pH 440 Supreme Spray Oil (jrs-2863) ◆ For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Superzyme® 1-0-4 Biological Growth Factor (jhb-9873)

Crop Products: Fertilizers, Blended with micronutrients
Biomin® Cal-Boro Calcium with Boron (jhb-0156)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biomin® Cal-Boro Light Calcium with Boron (jhb-0476)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biomin® Cal-Boro Complexed Minerals for Soil and Foliar Application 1-0-0 (jhb-14434)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biomin Cal-Boro Calcium with Boron 1-0-0 (jhb-14446)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biomin Cal-Boro Calcium with Boron – Amino Acid Mineral for Soil and Foliar Application (jhb-14525)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fish Products, Liquid, Stabilized
Aqua Power™ 5-1-1 Liquid Fish Fertilizer (jhb-1996)

Crop Products: Garlic
BioRepel Natural Insect Repellent (jhb-9553)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides
Weed Zap™ (jhb-0157)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Humates
HUMAX 95-WSG (jhb-10764)

Crop Products: Iron Products
Biom Iron (jhb-1692)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biom Iron Powder 5-0-0 (jhb-6876)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Ferrous Sulfate (jhb-7400)  
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions
Biom Magnesium (jhb-0015)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.
Biom Magnesium Powder 5-0-0 (jhb-6876)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.
JH Biotech Magnesium Sulfate Anhydrous (jhb-6873)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients
Biom Booster 126 (jhb-0020)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biom Booster 153 (jhb-0021)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Promot® MZM Organic Starter Fertilizer (jhb-9552)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

BIOMIN 446-SP (jhb-10761)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biom 235-L (jhb-11128)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Biom 454-SP (jhb-13459)  
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Crop Products: Manganese Products
Biomin Manganese (jhb-0016) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Biomin Manganese Powder 5-0-0 (jhb-6877) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Microbial Inoculants
Mycomax Biological Inoculum (jhb-6045)
BUFFACT SD Stubble Digester (jhb-10759)
SEEDUP Microbial Inoculant for Seed Treatment (jhb-10760)
SOLUPHOS SP Microbial Inoculant Powder (jhb-10769)
Fulzyme Plus-SP (jhb-11129)
Fulzyme-SP (jhb-11130)

Crop Products: Microbial Products
Promot® Plus Biological Growth Promoter (jhb-0011)
Fulzyme® Plus Natural Growth Factor (jhb-1331)

Crop Products: Micronutrients
BIOMIN 464-SP (jhb-10762) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Nematicides
NemaOut (jhb-12748) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Sulfate
Big K Sulfate of Potash 0-0-50 (jhb-5987)

Crop Products: Wetting Agents
Natural Wet® Wetting Agent (jhb-0752)

Crop Products: Zinc Products
Biomin Zinc (jhb-0018) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Biomin Zinc Powder 5-0-0 (jhb-6878) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Biomin Zinc Powder 5-0-0 (jhb-6878) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Ferric Phosphate
Monterey Sluggo® (lgp-0598)
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo Plus Insect, Slug & Snail Pellets (lgp-2870)
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Ant Control (lgp-4674)
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Complete Disease Control Brand RTU Ready-to-Use Biofungicide/Bactericide (lgp-6454)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
Monterey Fruit Tree Spray Plus Broad Spectrum Insecticide, Fungicide, and Miticide (lgp-3720)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides
Monterey Nematode Control (lgp-3282)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
Monterey Horticultural Oil (lgp-2574)
For use as an insecticide (including acaricide or miticide control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum
Monterey Bug Buster-O (lgp-4823)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Monterey Garden Insect Spray RTU (lgp-5689)
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.
Monterey Insecticidal Soap RTU (lgp-14034) 
 May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad
Monterey Garden Insect Spray (lgp-0034) 
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.
Crop Products: Copper Sulfate
Along-Life Algaecide/Bactericide* (lsg-5470) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RiceGuard Algaecide (lsg-8205) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RiceTec Algaecide/ Bactericide (lsg-13703) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur
Dusting Sulfur Fungicide-Insecticide (lpi-10076)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Loveland Products Thiolux Fungicide - Miticide (lpi-4845)
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertile Phosphate
Leaf Life® Sluggo® Snail and Slug Bait (lpi-3702)
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended
Groganic® 8-2-1 Fertilizer (lpi-0719)

Crop Products: Humic Acids – alkali extracted
Loveland Products Humic 600 For Soil and Foliar Applications (lpi-8590)
Loveland Products ReaX Organic C2 0-0-2 (lpi-13595)

Crop Products: Manure, processed
Groganic® 5-3-2 Fertilizer (lpi-0718)

Crop Products: Microbial Products, with manure
Accomplish LM (lpi-10728)
May only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Crop Products: Oils, Horticultural
Glacial® Spray Fluid (lpi-0653)
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Leaf Life® Gavicide Green® 415 (lpi-2405)
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate
Agri-Life Fungicide/Bactericide/Algaecide (lga-6954)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algaecide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Mastercrops Bactericide/Fungicide (ada-10056)**

- **For plant disease control, copper must be used in a manner that minimizes accumulation of copper in the soil.** For use as a sanitizer, copper must not exceed one application per field during any 24-month period. Application rates must be in the range of those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires that the use of preventive, mechanical, physical, and other pest, weed, and disease management practices must be used in a manner that minimizes copper accumulation in the soil.

**Sanitek Saniclor Hipoclorito De Calcio Al 165% (mqi-6685)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanibox 1 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 1/2) (mqi-6689)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanitrox 1 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 2/2) (mqi-6690)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanitrox 2 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 2/2) (mqi-6691)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanitrox 2 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 2/2) (mqi-6692)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanitrox 2 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 2/2) (mqi-6693)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanitrox 2 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 2/2) (mqi-6694)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as sanitizers and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

**Sanitek Sanitrox 2 Sanitizante de Amplio Espectro a Base de Díóxido de Cloro Activo (Parte 2/2) (mqi-6695)**

- **May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose.** Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. Crop Products: Biopesticides

**Grandevo** (moi-2794)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Grandevo™ PTO** (moi-3856)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**MBI-601 EP** (moi-7452)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Fungicides**

**Amplitude ST Broad-spectrum biofungicide/bactericide Aqueous Suspension** (moi-11394)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Crop Products: Biopesticides, Fermentation Products, Herbicides, Microbial Pesticides, Microbial Products**

**MBI-014 WDG** (moi-11715)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Biopesticides, Fermentation Products, Microbial Pesticides, Seed Treatments – Synthetic**

**GRANDEVO® ST** (moi-11644)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Ennoble Biofungistant** (moi-11395)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Fungi**

**Regalia® Biofungicide** (moi-1575)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**MBI-110 EP Broad-spectrum biofungicide/bactericide Aqueous Suspension** (moi-3108)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Crop Products: Biopesticides, Fungicides**

**Ennoble Biofungistant** (moi-11395)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® PTO Biofungicide** (moi-3854)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Maxx Biofungicide Concentrate** (moi-1711)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Rx Biofungicide** (moi-3855)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Regalia® Maxx Extracto de Reynoutria sachalinensis Fungicida / Suspensión Concentrada** (moi-5446)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Reysana Biofungicide** (moi-10057)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Stargus Biofungicide** (moi-10243)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

**Regalia® 12 Biofungicide** (moi-5307)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**FMC Regalia Maxx Extracto de Reynoutria sachalinensis Fungicida / Suspensión Concentrada** (moi-5446)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

**Reysana Biofungicide** (moi-10057)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Regalia CG Biofungicide (moi-10242) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia Maxx 20 SC Fungicida-Botánico (moi-11396) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-106 12 Biofungicide (moi-12704) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Marrone Bio Innovations PACESETTER (moi-13975) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hydrogen Peroxide, Peroxyacetic/Peroxacetic Acid

EVOCADE A Fungicide, Bactericide, Algaecide for Agricultural Uses (moi-13805) ◆
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as a pesticide to control firebright. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides

MBI-203 WDG (moi-6286) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo WDG Bioinsecticide (moi-7140) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo CG Bioinsecticide (moi-10241) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Venerate Bioinsecticide (moi-3903) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Venerate™ XC Bioinsecticide (moi-4939) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Majestene Bioinematicide (moi-6393) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-206 EP (moi-7141) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Zelto (moi-10245) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Marrone Bio Innovations Jet-Oxide® 5 (Peroxyacetic Acid Solution) (moi-14665) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper, fixed

CSC Copper Sulfur Dust Fungicide (csc-0033) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Elemental Sulfur

CSC DS-90 90% Elemental Sulfur Pastille (csc-9230)
CSC Dusting Sulfur Fungicide-Miticide (csc-3066) ◆
For use as a plant disease control or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Acid Activators for Chlorine Dioxide
MChem HYDROFLO CLEANER & PROCESS WATER TREATMENT (mce-13469)
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Chlorine Dioxide
MChem MClean 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (mce-13465)
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide
OxiGreen (Antimicrobial Solution) (mce-5411)
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Peroxyacetic/Peracetic Acid
OxiTech 15 (Antimicrobial Solution) (mce-5413)
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Processing Products: Peracetic Acid/Peroxyacetic Acid
OxiGreen (Antimicrobial Solution) (mce-5412)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

OxiTech 15 (Antimicrobial Solution) (mce-5414)
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

NH-Amin BIOESTIMULANTE DEL CRECIMIENTO VEGETAL (nhr-10321)
AminoA’s (nhr-12132)
NH-Root Enraizante Orgánico (nhr-12187)

Crop Products: Botanical Pesticides
NH-Force Plus (nhr-12435)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Carbonate
NH-Calcio CALCIO EXENTO DE CLORUROS, NITRATOS Y SULFATOS (nhr-10322)

Crop Products: Hydrogen Peroxide
NH-Force SANITIZANTE LÍQUIDO (nhr-10323)
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Magnesium Sulfate
NH-Mg MAGNESIO EXENTO DE CLORUROS, NITRATOS Y SULFATOS (nhr-10325)

Crop Products: Micronutrients
Az-Mix AMINÓACIDOS CON MICROELEMENTOS (nhr-12947)
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Potassium Silicate, aqueous
SOLU-K Fungicida Acaricida Insecticida (nhr-11017)
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides
NB-ACTIVATOR Adherente Dispersante Penetrante (nbt-12611)
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Botanical Pesticides
NB TRIPER (nbt-10272)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chitin
NB-FUSAR (nbt-13120)
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Copper Sulfate

NB FUNBAC 27 S Fungicida/Concentrado Emulsionable (nbt-10265) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides

Ader X Herbicida Natural Herbicida Sistémico y de Amplio Espectro (nbt-14451) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides

FOSFIGUR (nbt-13016) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-GLYCOM Agente de Control Biológico - Polvo Humectable (nbt-14468) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-RIZOVER Agente de Control Biológico - Polvo Humectable (nbt-14469) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

NB NATU-CROP Insecticida Biológico Agrícola (nbt-10269) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB TIME CONTROL Biofungicida (nbt-10271) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB Z-CROP Biofungicida (nbt-10273) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

NB-Neem 100% Aceite Puro de Neem (nbt-10360)

Crop Products: Microbial Pesticides

Titan-Force Insecticida natural de Piretrina (nbt-11586) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NORDOX 75 WG Wettable Granule Fungicide (nor-3171)◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

NORDOX 30/30 WG (nor-1337)◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cobre Nordox 75 WG Fungicida Cúprico de Alta Concentración (nor-7659)◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Redshield 750 Fungicida-Bactericida Inorganico Granulos Dispersables (WG) (nor-7660)◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Copper Sulfate
CUBIDEX (pef-14370)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

**proan ara-3 (pan-10381)**

For use as a pest lure, repellant, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

**proan Cupro-an fungicida (pan-13046)**

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Micronutrients
AGNITION Generate for Organic Use (rni-14280) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Livestock Products: Calcium Carbonate
Strong Animals Regano 500 (rni-1343) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Strong Animals Regano 500 (rni-12672) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Strong Animals Prosper EO (rni-12677) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Livestock Products: Essential Oils
Strong Animals Regano Liquid (rni-1705) Strong Animals ProsperEO Liquid (rni-12103) Strong Animals Uddersol (rni-1674)

Livestock Products: Inoculants
Aginition Anchor for Silage (rni-13001) Strong Animals Anchor for Hay Additive for Hay Preservation (rni-14145)

Livestock Products: Minerals
MC100 (rni-10576) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Strong Animals Stand Strong for Ruminants A Flavor Additive and Mineral Supplement for all Classes of Ruminant Animals (rni-13309) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Minerals, Vitamins
Strong Animals IntegraFlo Anti-Caking Agent and Nutritional Supplement for Use in Livestock Feeds (rni-13296) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
OMRI Products List

Poultry Max™ Pure A Vitamin and Mineral Premix for all Classes of Poultry [rni-14169] ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Prebiotics
ActiFibe For the Further Manufacturing of Feeds [rni-13511] ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.
ActiFibe Liquid For inclusion in the further manufacturing of animal supplements [rni-13972] ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Processing Products: Chlorine Materials, Hypochlorous Acid
Desy Orgánico Desinfectante de Alto Nivel (rta-12949) ♦
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Crop Products: Copper Sulfate
INSTILL-O (stj-12513) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Selectrocide A12 (smt-6541) •
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® A5 (smt-7602) •
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® -Pouch 200MG- (smt-2834) •
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.
Selectrocide® 12G (smt-2340) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Processing Products: Fruit and Vegetable Wash, post-harvest
smt Limitless Clean Sapindus Mukorossi Selective Micro Multi-Surface Fruit and Vegetable Wash (smt-11018) ◆
For use in post-harvest handling of raw agricultural commodities.

Crop Products: Chitin
Terra Healer Nematicida Fungicida (smr-11109)

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Copper Sulfate
CuProtective Fungicida Bactericida (smr-11041)✓
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides
VOGA Coadyuvante Agrícola/Líquido (sam-8168) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Bacillus thuringiensis
Javelin WG Insecticida Biologico Insecticida/Granulos Dispersibles (sam-7123) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides
Soligard 12G Fungicida Microbial Fungicida/Granulos dispersables (sam-7125) ◆
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides
DoubleNickel55WG Biofungicida Fungicida Agrícola/Granulos Dispersibles En Agua (sam-7122) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products
Tango Inoculante (SÓLIDO/POLVO) (sam-12713) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
Neemix 4.5 Insecticida Regulador del Crecimiento Insecticida/Concentrado Emulsionable (sam-7124) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with sodium nitrate
Sustâne Flourish 8-2-4 Water Dispersible Fertilizer (sus-8122) ◆
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Sustâne Hi-N 12-0-1 Water Dispersible Fertilizer (sus-8138) ◆
This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Crop Products: Amino Acids
iBAi AMIN L-aminoácidos 16% (sst-7843)
iBAi CALCIO (sst-7919)
iBAi CU Corrector de deficiencias de Cobre (sst-10373) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers and Soil Amendments, Blended
iBAi MACRORADICULAR (sst-13684)

Crop Products: Hydrogen Peroxide
iBAi Ox Desinfectante de Suelos Desinfectante Líquido (sst-6913) ◆
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Magnesium Sulfate
iBAi MAGNESIUM (sst-7920)
Swanson Raised Bed Soil (sbw-10572) ♦
Refer to specific ingredient categories for applicable use restrictions. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Iron Products, Transplant/Container Media – Allowed With Restrictions
Swanson Flower & Vegetable Garden Soil (sbw-10570) ♦
Refer to specific ingredient categories for applicable use restrictions. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate
TMTAGRO Kupfer/AP Sulfato De Cobre Al 21% Fungicida y Bactericida Solución Acuosa (tta-13754)
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Chlorine Dioxide
TwinOxide 0.3% ClO2 Solution Component A Sodium Chlorite Powder Composition (gct-10801) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Processing Products: Acid Activators for Chlorine Dioxide
TwinOxide 0.3% ClO2 Solution Component B Sodium Bisulfate Powder Composition (gct-10872) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.605(b).

Crop Products: Peroxyacetic/Peracetic Acid
Biotrol 150 (Antimicrobial Solution) (uws-6236) ◆
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Processing Products: Peracetic Acid/Peroxyacetic Acid
Biotrol 115 (Antimicrobial Solution) (uws-6235) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Biotrol 220 (Antimicrobial Solution) (uws-13767) ◆
May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Potassium Chloride, Sodium Nitrate (Chilean Nitrate)
Liquid complex fertilizer NPK 3-0-9 (uat-12700) ◆
Must be applied in a manner that minimizes chloride accumulation in the soil. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.
Crop Products: Zinc Products

BLU-MIN Liquid Zinc Sulfate (uym-8852) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Ultra Yield 33.3% Zinc-Granular with Sulfur (uym-8853) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Ultra Yield 35.5% Zinc-Granular with Sulfur (uym-8854) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

PROGRANIC® Omega extracto de chichalote (Argemone mexicana) Insecticida y Acaricida Botánico/Concentrado Emulsionable (uqa-7615) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRANIC® Piretro extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-7616) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioPow® argemonia, berberina, ricinina y α-terthienil Insecticida Y/O Acaricida Botanico / Extracto Acuoso (uqa-8771) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Omega extracto de chichalote (Argemone mexicana) Insecticida Y Acaricida Botanico / Concentrado Emulsionable (uqa-8772) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Piretrinas Extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-8773) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Progranic® Larrea® extracto de gobernadora (Larrea tridentata) Fungicida y Bactericida Botanico/Liquido Soluble (uqa-8774) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Progranic® Tagetes® extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-8776) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Acar® Progreen® extracto de canela Insecticida y Acaricida/Emulsion Aceite en Agua (uqa-11775) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ULTRACHEM® Mega extracto de gobernadora (Larrea tridentata) FUNGICIDA y BACTERICIDA BOTANICO / LIQUIDO SOLUBLE (uqa-12970) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DISAGRO SUPRALID INSECTICIDA BIOQUÍMICO – Alcaloide, Alquilsulfato Argemonina, Berberina, Ricinina, α-Terthienil (uqa-14006) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioProtector argemonia, berberina, ricinina y α-terthienil INSECTICIDA Y/O ACARICIDA BOTANICO / EXTRACTO ACUOSO (uqa-14143) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRANIC® Neem CE 80® extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-8775) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Ultralux® S sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-7617) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demolser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Cyr® PotasyMax sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-10485) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demolser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Die Soap K sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-11776) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demolser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Processing Products: Botanical Pesticides

Eco Urban argemonina + berberina + ricinina + α-terthienil Insecticida / Extracto Acuoso (uqa-13220) ◆
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Copper Sulfate, Fungicides  
Blue Cure (una-13189)

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Livestock Products: Acid Activators for Chlorine Dioxide

Verox® Activator DX (vox-7496) •
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide may comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Verox® Activator DXSP (vox-7497) •
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment’s next use.

Verox® Activator DXS (vox-6379) •
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). Natural Guard Brand by ferti-lome Copper Soap Fungicide Concentrate (vpg-8911) ●
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Natural Guard Brand by ferti-lome Copper Soap Fungicide Ready to Use (vpg-8912) ●
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Ferric Phosphate
Natural Guard Brand by ferti-lome Bug, Slug & Snail Bait (vpg-8910) ●
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by ferti-lome Slug & Snail Bait (vpg-8913) ●
For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
ferti-lome Triple Action Insecticide+Fungicide+Miticide (vpg-8387) ●
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natural Guard Brand by ferti-lome Neem (vpg-11972) ●
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Natural Guard Brand by ferti-lome Spinosad Soap Ready to Use (vpg-8914) ●
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide the only may be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Natural Guard Brand by ferti-lome Spinosad Soap Concentrate (vpg-11973) ●
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Natural Guard Brand by ferti-lome Spinosad Soap Ready to Spray (vpg-11974) ●
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Natural Guard Brand by Ferti-lome Grass & Weed Killer Non-Selective (vpg-12731) ●
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad
Natural Guard Brand by Ferti-lome Spinosad Bagworm, Tent Caterpillar and Chewing Insect Control (vpg-7256) ●
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
ferti-lome Triple Action Insecticide+Fungicide+Miticide (vpg-8387) ●
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Spinosad
Natural Guard Brand by Ferti-lome Spinosad Ready to Spray (vpg-8915) ●
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides
VXMAS Upside® Insecticide (vxm-12287) ●
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate, Fungicides
VXMAS Devour® Fungicida-Bactericida (vxm-12974) ●
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and an accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Copper Fungicide (neu-3069) ◆
For plant disease control. May only be used if
the requirements of 205.206(e) are met, which
requires the use of preventive, mechanical,
physical, and other pest, weed, and disease
management practices. Must be used in a
manner that minimizes copper accumulation in
the soil.

Hydro Worxx™ Disease Control Concentrate
(neu-7251) ◆
For plant disease control. May only be used if
the requirements of 205.206(e) are met, which
requires the use of preventive, mechanical,
physical, and other pest, weed, and disease
management practices. Must be used in a
manner that minimizes copper accumulation in
the soil.

Hydro Worxx™ Disease Control Ready To
Use (neu-7252) ◆
For plant disease control. May only be used if
the requirements of 205.206(e) are met, which
requires the use of preventive, mechanical,
physical, and other pest, weed, and disease
management practices. Must be used in a
manner that minimizes copper accumulation in
the soil.

Cueva Fungicide Concentrate Flowable
Liquid Copper Fungicide (neu-11228) ◆
For plant disease control. May only be used if
the requirements of 205.206(e) are met, which
requires the use of preventive, mechanical,
physical, and other pest, weed, and disease
management practices. Must be used in a
manner that minimizes copper accumulation in
the soil.

Crop Products: Herbicides
HomePlate (neu-6439) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fireworxx (neu-11344) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Homeplate RTU (neu-12678) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils
Vegol Insecticidal Oil (neu-3007) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O RTU (neu-3589) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O (neu-3599) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Hydro Worxx™ Mite & Insect Killer Ready To
Use (neu-7255) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap
Neudorff’s Insecticidal Soap Concentrate
(neu-4192) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

Neudorff’s Insecticidal Soap RTU (neu-0074) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

Neudorff’s Insecticidal Soap Ready-to-Use
(neu-0807) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

KOPA Insecticidal Soap (neu-0086) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

Neudosan Insecticidal Soap (neu-12678) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

Neudorff® H01 Concentrate Herbicidal Soap
(neu-2487) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as an herbicide may only be used for
farmstead maintenance (roadways, ditches, right
of ways, building perimeters) and ornamental
crops.

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Calcium Chloride, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions
ProNatural Calcium Plus 1-0-0 (wec-7968) ◆
For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Coppers, fixed, Elemental Sulfur
Actives Fungicide Wil-Dry (wec-8819) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Crab/Crustacean Meal
Lighthouse Crab Shell Soil Amendment (wec-12209)

Crop Products: Elemental Sulfur
Wilbur-Ellis Ben-Sul 85 (wec-4045) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Special Electric® Refined Super-Adhesive Dusting Sulfur (wec-1478) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Golden Micronized Sulfur (FUNGICIDE AND INSECTICIDE) (wec-2773) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sulfur Dry Flowable Fungicide - Miticide Micronized Wettable Sulfur WDG (Water Dispersable Granule) (wec-11466) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients
ProNatural Iron Plus 1-0-0 (wec-7971) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

ProNatural Manganese Plus 1-0-0 (wec-7973) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
ProNatural Photo Max Plus (wec-7974) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with micronutrients, Zinc Products
Foli-Gro Zinc 10% (wec-7968) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
ProNatural Magnesium Plus 1-0-0 (wec-7972) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

BenVireo Magnesium (wec-12059) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with micronutrients
BenVireo Manganese (wec-12061) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate
ProNatural Magnesium Plus 1-0-0 (wec-7972) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.
Crop Products: Fertilizers, Blended with synthetic magnesium sulfate, Micronutrients
BenViireo Multus (wec-12062) •
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Adjuvants, for use in pesticides
WinField JetShield Nonionic Spray Adjuvant (wsl-14119) •
For use as a plant or soil amendment if soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Boron Products
M Micronutrient Boron 14.3% Granular Borate (wsl-2325) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Products
WinField United Organics Copper 5% LS Granular Copper Lignosulfonate Plant Nutrient Compound (wsl-3980) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Iron Products
WinField United Organics Iron 10% LS Granular Iron Lignosulfonate Plant Nutrient Compound (wsl-3981) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Manganese Products
WinField United Organics Manganese 8% LS Granular Manganese Lignosulfonate Plant Nutrient Compound (wsl-6085) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients
WinField United Organics Crop Mix 1 LS Granular Micronutrient Lignosulfonate Plant Nutrient Compound (wsl-6123) •
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.
Crop Products: Zinc Products
WinField United Organics Zinc 10% LS Granular Zinc Lignosulfonate Plant Nutrient Compound (wsc-5112) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Crop Products: Diatomaceous Earth
Safer® Brand Ant & Crawling Insect Killer (wsc-9846)  
For use as a pest lure, repellent, or as part of a trap, as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur
Safer® Brand Garden Fungicide II (wsc-3155)  
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur, Soap
Safer® Brand 3-in-1 Concentrate II (wsc-4180)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an algicide/demopper, herbicide or insecticide. When used as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer® Brand 3-in-1 Garden Spray II (wsc-4181)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended
Safer Brand 3-in-1 Garden Spray (wsc-11287)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Derivatives
Safer Brand 3-in-1 Concentrate II (wsc-4180)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives
Safer Brand Garden Defense Multi-Purpose Spray Concentrate (wsc-2657)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Neem Oil RTU Fungicide / Miticide / Insecticide (wsc-8420)  
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural
Safer Brand Horticultural & Dormant Spray Oil (wsc-9665)  
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum, Soap
Safer® Brand Tomato & Vegetable Insect Killer II (wsc-4080)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demopper, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Repellents – Allowed With Restrictions
Havahart® Deer Away® Deer & Rabbit II (wsc-3158)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.
Havahart® Critter Ridder® (wsc-4215)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® Ready-To-Use (wsc-0279)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® Concentrate (wsc-0280)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DeFence™ by Havahart Rabbit & Deer Repellent (wsc-1279)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DeFence™ by Havahart Rabbit and Deer Repelling Pellets (wsc-1521)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Deer-Off® II Ready-To-Use (wsc-1381)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Deer Off® Deer and Rabbit Repelling Pellets (wsc-2702)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Animal Repellent (wsc-12345)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Deer & Rabbit Repellent Ready-To-Use (wsc-12346)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Animal Repellent Ready-To-Use (wsc-12400)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Safer® Brand Insect Killing Soap with Seaweed Extract II (wsc-9693)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Fruit & Vegetable Insect Killer II (wsc-9778)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Rose & Flower Insect Killer II (wsc-9784)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Insect Killing Soap Concentrate II (wsc-9786)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready-To-Spray II (wsc-9788)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready-To-Use II (wsc-9790)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand End All® Insect Killer (wsc-1484)  
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide.

When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Livestock Products: Diatomaceous Earth

Safer® Brand Food Grade Diatomaceous Earth (wsc-12126)  
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Processing Products: Diatomaceous Earth

Concern® Diatomaceous Earth Crawling Insect Killer (wsc-9783)  
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Safer Brand Ant & Crawling Insect Killer Made From Diatomaceous Earth (wsc-5552)  
For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.
