**Notes:**
- **OMRI Products List** is a list of products that are approved for organic production by the Organic Materials Review Institute (OMRI). These products are used in organic farming and are approved for use on OMRI-listed organic farms.
- **Livestock Products by Category** is a list of various products used in livestock production, categorized by their function or nutritional content.
- **Probiotics** are microbial feed additives that enhance the digestive function of animals.
- **Salt** is a common mineral product used in livestock diets.
- **Seaweed** is a product derived from marine algae, used in organic farming.

**Frequently Used Categories:**
- **OMRI Products List** includes a wide range of products, from mineral supplements to specialty organic products.
- **Livestock Products by Category** focuses on products used specifically in livestock production, from feed additives to mineral supplements.

**Common Products:**
- **OMRI Products List** includes products such as minerals, probiotics, and seaweed.
- **Livestock Products by Category** includes products like feed supplements, mineral salts, and probiotics.

**Use:**
- **OMRI Products List** is used by farmers and agricultural professionals to select products that are approved for organic farming.
- **Livestock Products by Category** is used by livestock producers to select specific products for their animals' diets.
