

# PRODUCTS LIST

OMRI has determined the following products are allowed for use in accordance with National Organic Program (NOP) standards, for the use indicated and in keeping with any applicable use restrictions as specified. Producers should consult with their USDA-accredited certifying body before using any new products. This document lists products added in the past three months. Updated **April 30, 2025**.

## PRODUCTS Newly Listed

### ACP-Lab

Vicente Rodriguez  
493212 Revolucion Mexicana  
Fonapo, Sayula 49300  
Mexico  
[vr33371@gmail.com](mailto:vr33371@gmail.com)

### Crop Products: Pollinator Attractants

Colmena Pollinator Attractant (akd-21018)

### Agriculture Solutions Inc

Registration  
2079 Line 34  
Shakespeare, Ontario N0B 2P0  
Canada  
P: +18552476548  
[admin@agricultureolutions.ca](mailto:admin@agricultureolutions.ca)

### Crop Products: Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Iron Products, Magnesium Sulfate – Allowed With Restrictions, Zinc Products

Agroplex-TRIPLE Fertilizante Inorgánico Aplicación Foliar (rel-21752) ◆  
Refer to specific ingredient categories for applicable use restrictions. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

### Agroinsumos del Campo S.A. de C.V.

Angel Alberto Solis Ortiz  
Privada Interior 2 #6909-5  
La Estancia 1  
Culiacán, Sinaloa 80143  
Mexico  
P: +526671738643  
[agrinisa\\_angel@hotmail.com](mailto:agrinisa_angel@hotmail.com)

### Crop Products: Botanical Pesticides

BIOCANEL Insecticida Agrícola (afq-21122) ◆  
May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AGRIGARLIC Insecticida Agrícola (afq-21121) ◆

May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

◆ This product is allowed with restrictions. See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

① The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

② The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

④ The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑤ The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑥ The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑦ The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

⑧ This product contains more than 1,000 MPN/g fecal coliform. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

⑨ This product contains more than 3 MPN/4g Salmonella. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

## Crop Products: Neem and Neem Derivatives

PRO-NEEM Insecticida Agrícola (afq-21123)

◆ May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

## AGROMOLECULAS SAPI DE CV

BIOZENIA
